Her Excellency, Governor Kelly A. Ayotte
and the Honorable Council
State House
Concord, New Hampshire 03301

INFORMATIONAL ITEM

Pursuant to the provisions of MOP 150 VII, C, the Department of Administrative Services (DAS) is exercising a provision in our statewide electricity supply contract with Constellation NewEnergy, Inc. (Contract #8003260) to add three accounts to the contract by increasing the price limitation by \$1,572.50, from \$7,019,464.36 to \$7,021,036.86. The existing contract with Constellation New Energy, Inc. allows DAS to add new facilities to the statewide contract which will result in a financial benefit to the State. Pursuant to MOP 150, VII, C, the original contract with Constellation NewEnergy, Inc. was executed on June 13, 2023, for the period of July 1, 2023 through June 30, 2024; the first amendment was executed February 28, 2024 to extend the contract period through June 30, 2026; and the second amendment was executed August 8, 2024 to add the Cannon Mountain Ski Area.

Funding shall be provided through individual agency expenditures, none of which shall be permitted unless there are sufficient appropriated funds to cover the expenditure.

EXPLANATION

MOP 150 VII, C allows the DAS to enter into commodity contracts without Governor and Executive Council approval under certain conditions. We exercised this option under item b) "The immediate procurement of commodities would result in a financial benefit to the State which would not be obtained if a delay in procurement were to occur".

Within the current contract parameters, DAS can add new facilities onto the statewide contract to provide the facilities with a fixed rate electricity supply. On July 20, 2025, DAS added two new facilities and one existing facility onto the statewide contract with Constellation New Energy Inc for a fixed price.

The existing facility below was missed as an addition during the original contract.

Agency	Account #	Facility Name	Address
DNCR	56962589024	Caretaker's House	427 Milan Hill Road, Milan, NH 03588

The two new facilities are listed below.

Agency	Account #	Facility Name	Address
Dept of Safety	56812860161	Fire Academy North Country Training Facility	0 Trudeau Rd, Bethlehem, NH 03574
Dept of Safety	56481870178	Troop A - MV Substation	315 Calef Rd, Epping, NH 03042

In consideration of the volatility of the market, this contract can be terminated within 30 days under the terms of the contract. Increased uncertainty about market conditions that affect electric supply and demand can result in high price volatility. Events that have contributed to changing market conditions include weather changes, production or imports and storage levels, and delivery constraints for natural gas and other fuel. This contract is priced at a fixed rate as shown in the table below and continues to be the lowest cost in total.

Power Group (PG) Contract Extension Pricing

Contracted Vendor	Power Group (PG)	New Contract per kWh Price/ Percent Change From Prior Contract
Constellation NewEnergy, Inc.	PG2 (Eversource)	\$0.0925/ 20.2% Decrease
		Total Per Year

Based on the foregoing, I am respectfully submitting notification and acknowledgement of the approved waiver for the aforementioned contract addition.

Respectfully submitted,

Charles M. Arlinghaus
 Commissioner
