Her Excellency, Governor Kelly A. Ayotte
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to enter into a grant agreement with the Town of Marlow, NH (VC# 159902-B001) totaling \$180,110 for partial funding for the replacement of one (1) dump truck, effective upon Governor and Council approval through December 31, 2026. 100% New Hampshire Volkswagen Environmental Mitigation Trust funds.

EXPLANATION

The New Hampshire Volkswagen Beneficiary Mitigation Plan provides that 20 percent of New Hampshire's allocation of the Volkswagen Mitigation Trust (VW Trust) funds will be available to public and private entities through a competitive solicitation process for the replacement of diesel vehicles and equipment. The intent is to reduce diesel emissions, and specifically to alleviate excess nitrogen oxide emissions caused by Volkswagen's violations. NHDES conducted a competitive Request for Proposals (RFP) termed "Granite State Clean Fleets" from April 7, 2025 through May 23, 2025. In response to this RFP, NHDES received seventeen (17) qualifying proposals. All proposals were selected for funding. Please refer to Attachment A for ranking and scores.

Under this Agreement, the Town of Marlow will replace one (1) engine model year (EMY) 1993 diesel-powered dump truck. In the more than thirty years that the Town has owned the truck, the vehicle has accumulated over 107,800 miles of use. The Town uses the truck to haul aggregates, support road drainage projects, and plow and salt roads in the winter. Due to the truck's age, replacement parts are becoming increasingly difficult to source, and certain powertrain components are nearing time for major rebuild or replacement. Recent repairs performed on this truck have included the dump body hydraulic lift cylinder, steering box, radiator hoses, u-joints, rear springs, tires, muffler, bearings, and various belts and heater replacements. The Town Highway Department has also found it difficult to hire new drivers due to the truck having a manual transmission. To improve operational reliability and employee hiring prospects and reduce diesel emissions and environmental impacts along the Ashuelot River, the Town has prioritized the replacement of this truck with a new EMY 2026 truck.

The Granite State Clean Fleets program has a mandatory minimum cost share requirement for a diesel-powered dump truck replacement project of 30 percent. NHDES will provide a grant of \$180,110 or 70 percent, whichever is less, of the total replacement cost (estimated at \$257,300) to the Town of Marlow for the replacement of the dump truck. NHDES will not be holding VW Trust funds in its accounts; all funds will be transferred directly from the trustee, Wilmington Trust, to the Town of Marlow, who will administer the project.

This Agreement has been approved as to form, substance, and execution by the Office of the Attorney General. In the event that VW Trust funds become no longer available, general funds will not be requested to support this program.

We respectfully request your approval.
