REQUESTED ACTION

1. EXPLANATION

This project is part of the State's Ten-Year Transportation Improvement Plan, under the Paving-Tier-2-Resurfacing Program. This project is part of the Tier 2 Federal Resurfacing program and involves 13.8 miles of pavement resurfacing on two (2) sections in four (4) towns in Maintenance District 3.

- 25313 – Tilton, US 3, Micro Mill Full Width, 3/4" Paver Shim Full Width Overlay, 2" High Strength Inlay Full Width, 3.8 Miles
- 27302 – Belmont/Laconia/Gilford, US 3, 1/2" Leveling Full Width, 1 1/2" Overlay Full Width, 1 1/2" High Strength Inlay Full Width, 1 1/2" Inlay Full Width, 10.0 Miles

The purpose of this project is to extend the life of the existing pavement infrastructure and minimize the need for costlier improvements in the future. Work efforts include roadway resurfacing, upgrading guardrail, and drainage structure adjustments. Fifty (50) sidewalk curb ramps will be updated to comply with ADA requirements. Striping is also included in this Contract. All impacted towns and utilities will be notified.

The proposed contingency amount is 5% of the contract amount. This project was quantified based on field observations, aerial photos, and as-built plans. Field adjustments may be required due to varying field conditions. In addition, the sections will continue to deteriorate through the 2025-2026 winter.

The sole bid received exceeds the Department's estimate by 51.65%. The bid analysis revealed several unit prices in the engineers estimate that were underestimated. After the correction of these unit prices, the sole bid received was reduced to 11.9% over the engineers estimate. The major items contributing to the increased bid are pavement items 403.11051, 403.11942, 411.1, 403.11952, 403.16 & 403.4 \$1.11M, Item 619.1 Maintenance of Traffic \$350,000, 692. Mobilization \$325,000, and 632.5108 – 8" Tape Pavement Marking \$75,000. Readvertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available, and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal funds (Pave-T2-Resurf), with anticipated utilization of Turnpike Toll Credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested. The Department of Transportation has determined that the vendor is in good standing with the Secretary of State's Office, has secured the required levels of insurance, and has provided evidence of authority to execute and be bound by the contract.

Sincerely,

William J. Cass, P.E.
Commissioner

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project is part of the Tier 2 Federal Resurfacing program and involves 13.8 miles of pavement resurfacing on two (2) sections in four (4) towns in Maintenance District 3.

25313 Tilton, US 3, Micro Mill Full Width, ¾" Paver Shim Full Width Overlay, 2" High Strength Inlay Full Width, 3.8 Miles

27302 Belmont/Laonia/Gilford, US 3, ½" Leveling Full Width, 1½" Overlay Full Width, 1½" High Strength Inlay Full Width, 1½" Inlay Full Width, 10.0 Miles

FEDERAL FUNDING: Pave-T2-Resurf (80%), Turnpike Toll Credit (20%)

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. This project was quantified based on field observations, aerial photos, and as-built plans. Field adjustments may be required due to varying field conditions. In addition, the sections will continue to deteriorate through the 2025-2026 winter.

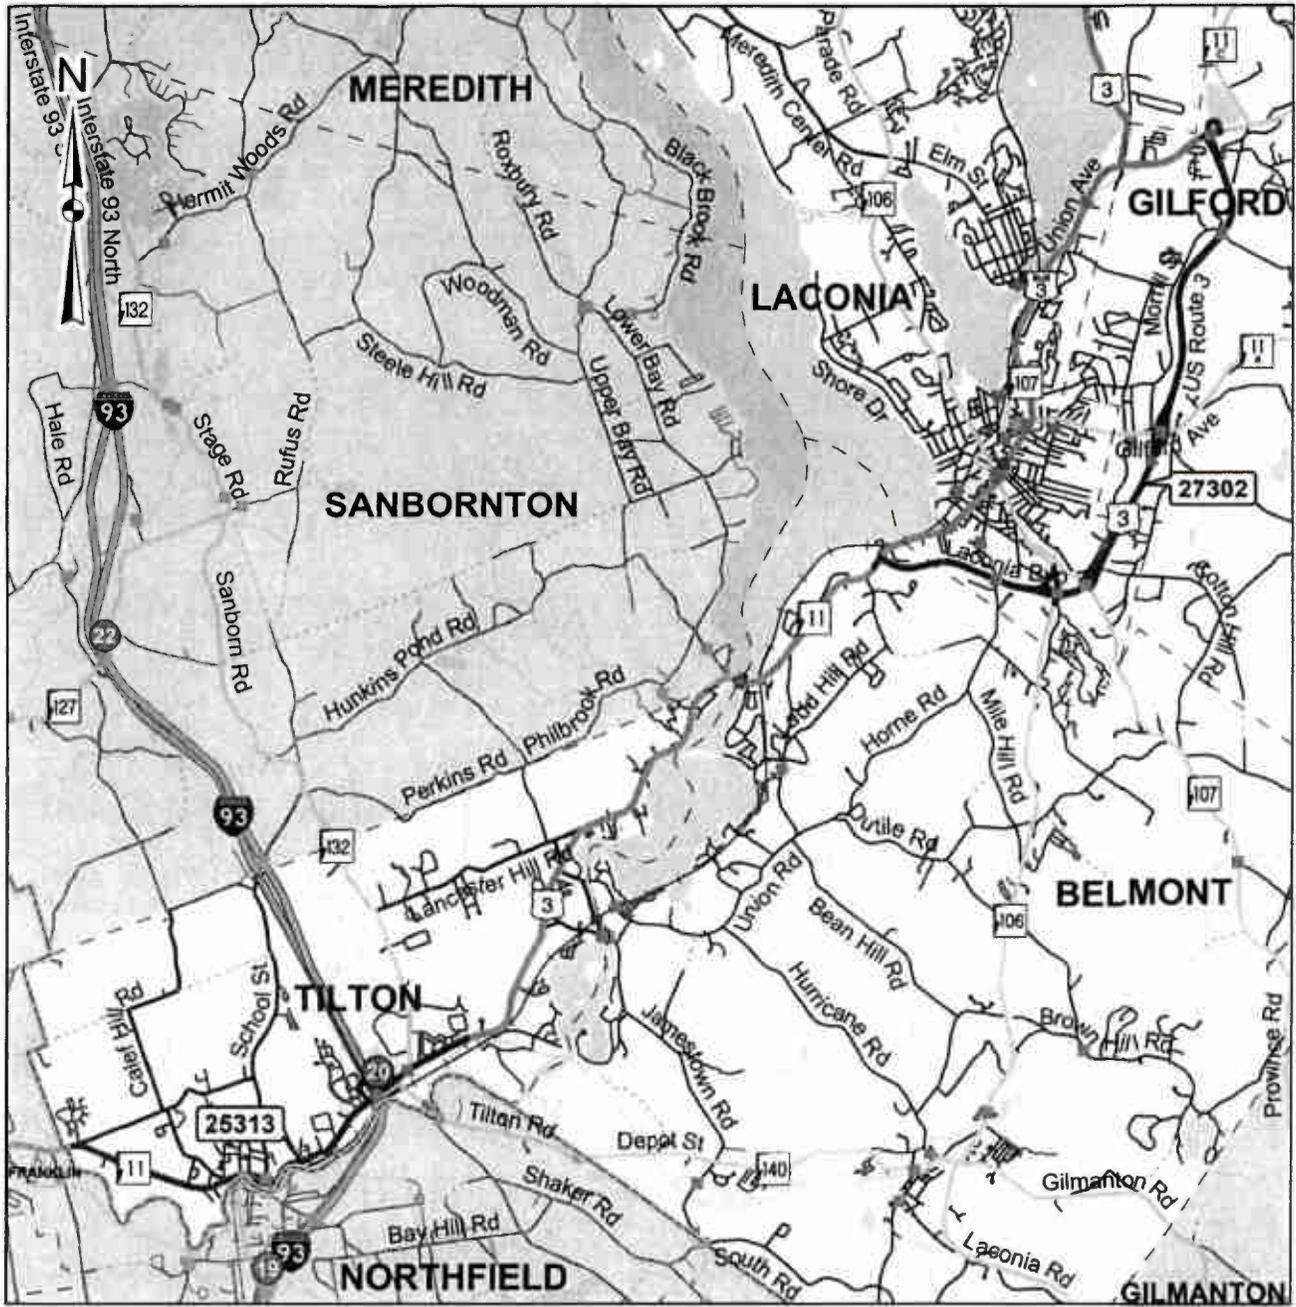

PROJECT INITIATED: This project was initiated through the State's Ten-Year Transportation Improvement Program, Paving-Tier-2-Resurfacing. The Pavement Management Section reviewed the road segments included in this project. They identified one (1) section for Light Capital Paving totaling 3.8 miles and one (1) section for Preservation totaling 10.0 miles.

PROJECT EXPLANATION: The purpose of this project is to extend the life of the existing pavement infrastructure and minimize the need for costlier improvements in the near future. Work efforts include roadway resurfacing, upgrading guardrail, and drainage structure adjustments. Fifty (50) sidewalk curb ramps will be updated to comply with ADA and striping is included in this Contract. All impacted towns and utilities will be notified.

TRAFFIC IMPLICATION: Only one (1) section will be paved at a time. One-lane, alternating two-way traffic will be required to complete the work. Unless otherwise noted in segment specific requirements, lane closer lengths will be limited to one (1) mile with a two (2) mile separation required between work zones. Traffic will be restored to normal patterns during non-work hours. Work zone significance was determined to be non-significant at the August 21, 2025 TCC meeting. Night work is required on all sections for this project. Detours are required for all ramp work in Section 27302 (Belmont/Laonia/Gilford, US 3).

FINAL COMPLETION DATE: October 9, 2026.
