JAN 28 2026

The Honorable Ken Weyler, Chairman
 Fiscal Committee of the General Court
 State House
 Concord, NH

Her Excellency, Governor Kelly A. Ayotte
 and the Honorable Council
 State House
 Concord, New Hampshire 03301

REQUESTED ACTION

Pursuant to the provisions of RSA 14:30-a, VI authorize the Department of Environmental Services (NHDES) to amend Fiscal Item FIS 22-195, approved by the Fiscal Committee on May 20, 2022 and approved by Governor and Council on June 1, 2022, Item #74 as amended by FIS 22-330, approved by the Fiscal Committee by October 14, 2022 and approved by Governor and Council on October 19, 2022, Item #70 and as extended by Fiscal Committee Item FIS 23-166 approved on May 19, 2023, and Governor and Council Item #160 approved on May 31, 2023, and as extended by Fiscal Committee Item FIS 24-182 approved on May 17, 2024 and Governor and Council Item #154 approved on May 15, 2024, as amended by Fiscal Committee Item FIS 24-207 approved on June 20, 2024 and Governor and Council Item #132 approved on June 26, 2024, as amended by Fiscal Committee Item FIS 24-367 approved on October 18, 2024 and Governor and Council Item #74 approved on October 16, 2024 and as extended by Fiscal Committee Item FIS 25-163 approved on June 20, 2025 and Governor and Council Item #250 approved on June 25, 2025 by transferring funds between class lines within an accounting unit in the amount of \$300,000 to better utilize federal funds, effective upon Fiscal Committee and Governor & Council approval through December 31, 2026. 100% Federal Funds.

NHDES is requesting changes in funding as follows:

ARPA DES DAM¹
03-44-44-440010-2657
Fiscal Year 2026

Class	Budget Category	Current Budget	Transfer of Funds	Revised Budget

EXPLANATION

The American Rescue Plan Act (ARPA) of 2021, is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to expedite the United States' recovery from the economic and health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergencies, responding to workers performing essential work during the COVID -19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure.

NHDES has been awarded a total of \$35,000,000 to fund the rehabilitation of state and municipally owned dams to meet current dam safety standards. Of the \$35 million in federal funds awarded, \$29.2 million was allocated for the rehabilitation of state-owned dams, and \$5.8 million was allocated for grants to municipalities for the rehabilitation of municipally owned high hazard dams. The rehabilitation of state-owned dams is primarily carried out by the NHDES Dam Bureau's Engineering and Construction Section using force account basis. Additional work is completed through contracts with engineering consultants and construction contractors, under the supervision of the Section's engineers.

The Town of Walpole was originally awarded ARPA funding to rehabilitate the Walpole Reservoir Dam, a High Hazard dam currently rated in Poor Condition. That grant award included design, permitting, bidding and construction activities. The Town of Walpole has notified us that they will be returning a portion of their allocated grant funds because the remaining expected costs are significantly less than originally estimated due to a revised project scope. The scope of the project has been modified to focus on permitting and planning activities only, as the original construction phase is no longer feasible within the remaining ARPA grant period. The returned funds will allow for potential reallocation to other priority initiatives.

The Honorable Ken Weyler, Chairman
Fiscal Committee of the General Court and
Her Excellency, Governor Kelly A. Ayotte
and The Honorable Council

Page 3 of 3

NHDES has determined that additional funding should be allocated to contracts for program services to provide engineering services as needed for repair/reconstruction projects on dams owned by the State of New Hampshire.

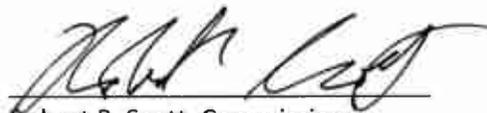

NHDES is requesting to transfer funds as shown below:

Class 046	To add funds for outside engineering firms to assist with major projects.
Class 072	To reduce grants for the rehabilitation of municipally owned dams.

The following information is provided in accordance with the Budget Officer's instructional memorandum dated April 17, 1985.

- 1) Does the transfer involve continuing programs or one-time projects?
This transfer is for continuing ARPA program.
- 2) Is this transfer required to maintain existing program level, or will it increase the program level?
This transfer is to maintain existing ARPA program level.
- 3) Cite any requirements which make this program mandatory. n/a
- 4) Identify the source of the funds on all accounts listed on this transfer.
American Rescue Plan Act of 2021 (ARPA)
- 5) Will there be any effect on revenue if this transfer is approved or disapproved? No.
- 6) Are funds expected to lapse if this transfer is not approved? No.
- 7) Are personnel services involved? If yes, answer the following:
Yes.
 - a. Number of positions budgeted in each account. 4
 - b. Number of positions filled in each account. 1
 - c. Reason for vacant positions. Staff promotion and retirement
 - d. Have any positions been transferred previously in these accounts? No
 - e. Will any positions be transferred as a result of this request? No

We respectfully request your approval of this item.

ITEM # 22-195

APPROVED G & C

DATE 1 June 2022
ITEM # 74

REQUESTED ACTIONS

1. Pursuant to RSA 14:30-a, VI, authorize the Department of Environmental Services (NHDES) to accept and expend \$35,000,000 in federal funds from the American Rescue Plan Act of 2021 (ARPA) to fund the rehabilitation of state and municipally owned dams to meet current dam safety standards, effective upon Fiscal Committee and Governor & Council approval through June 30, 2023. Funding is 100% Federal Funds. This is an allowable use of ARP FRF funds under Section 602 (c)(1)(C) for the provision of government services to the extent of the reduction in revenue.

2. Pursuant to the provisions of RSA 124:15,1, authorize NHDES to establish class 046 Consultants and to establish four full time temporary positions effective upon Fiscal Committee and Governor & Council approval through June 30, 2023. The positions were approved by the Division of Personnel on April 13, 2022. A copy of the approval documentation is attached.

EXPLANATION

The American Rescue Plan Act (ARPA) of 2021, is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to speed up the United States' recovery from the economic and health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergency, responding to workers performing essential work during the COVID -19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure.

Of the \$35 million in federal funds to be awarded, \$30 million will be allocated for the rehabilitation of state-owned dams, and \$5 million will be allocated for grants to municipalities for the rehabilitation of municipally owned dams. The state-owned dams intended to be rehabilitated include the following but this list may change based on safety assessments and/or ability to meet ARPA deadlines.

Dam Name	Town
Avery Dam	Laconia
Goose Pond Dam	Canaan
Jones Dam and Alton Dam	Alton
Little Bog Dam	Odell
Little Trio Dam	Odell
Mendums Pond Dam	Nottingham
Merrymeeting Dam	New Durham
Milton 3-Ponds	Milton
Murphy Dam	Pittsburg
Northwood Lake Dam	Northwood
Sunset Lake Dam	Alton

The rehabilitation of state-owned dams is largely performed on a force account basis by the NHDES Dam Bureau Engineering and Construction Section staff, consisting of three civil engineers, including the Section Supervisor, and two land surveyors who design and oversee the projects, as well as a nine-person construction crew that performs the actual construction. Some work is also performed on a contract basis

with engineering consultants and construction contractors, overseen by Engineering and Construction Section engineers. With its current staffing, the Section has the capacity to perform only approximately \$4 million of dam rehabilitation projects on a force account basis per biennium; and, with the help of other Dam Bureau staff, to oversee up to another \$4 million in contract design and construction work per biennium. With this award, the Engineering and Construction Section will be responsible for executing \$30 million in rehabilitation of state-owned dams in four and a half years, which is four times the current capacity of the Section. Additional full-time temporary positions are needed in the Engineering and Construction Section to accomplish this work within the deadlines established in ARPA, under which the funds for all work must be obligated by December 31, 2024, and fully expended by December 31, 2026.

In addition, with the award, the NHDES Dam Bureau will establish and administer an entirely new grant program in the amount of \$5 million to assist with the rehabilitation of municipally owned dams.

NHDES is requesting to budget these funds as shown below:

- Class 018 To cover the cost for overtime for personnel.
- Class 020 To cover costs for public outreach, postage, office and field supplies.
- Class 022 To cover costs for rented office and field equipment.
- Class 023 To cover costs for heat, electricity, and water.
- Class 024 To cover repairs of field equipment and other instrumentation.
- Class 027 To cover costs for Department of Information Technology services.
- Class 028 To cover costs for state office building rent and related services.
- Class 030 To cover costs for office and field equipment.
- Class 037 To cover the costs for computers for new staff.
- Class 038 To cover the costs for software for new staff.
- Class 039 To cover the costs of telecommunications.
- Class 040 To cover the program share of statewide indirect costs.
- Class 041 To cover the cost of Audit Set-Aside charges related to the federal program.
- Class 042 To cover the program share of additional fringe benefit costs.

The Honorable Karen Umberger, Chairman
 Fiscal Committee of the General Court and
 His Excellency, Governor Christopher T. Sununu
 and The Honorable Council

Page 5 of 8

- Class 046 To cover the cost of outside engineering firms to assist with major projects.
- Class 047 To cover the cost of building and grounds maintenance.
- Class 049 To cover transfers to other State agencies.
- Class 050 These funds are available in support of expanded or new program activities not previously budgeted. Employee support from existing NHDES programs will be used to conduct activities under this program. FAQ 48 from US Treasury states that payroll and benefits of employees managing new grant programs established with FRF is an allowable use, therefore, these funds will be used to replace funding for the following full time positions, which are currently budgeted:

Position #	Title	Account 03-44-44-	Funding Mix	Amount
11369	Construction Superintendent	442010-3817	100% Other	60,553
11374	Dam Construction Foreman	442010-3817	100% Other	50,514
11378	Construction Technician	442010-3817	100% Other	42,982
11381	Construction Technician	442010-3817	100% Other	41,014
11382	Construction Technician	442010-3817	100% Other	40,656
11383	Construction Technician	442010-3817	100% Other	44,963
18148	Construction Technician	442010-3817	100% Other	44,963
18149	Dam Construction Foreman	442010-3817	100% Other	53,222
18150	Civil Engineer V	442010-3817	100% Other	23,791
19513	Construction Technician	442010-3817	100% Other	32,889
42184	Civil Engineer V	442010-3817	100% Other	23,866
11372	Survey Team Technician V	442010-3800	100% General	13,302
11376	Environmental Eng Admin	442010-3800	100% General	34,928
11391	Civil Engineer VI	442010-3800	100% General	31,371
18146	Survey Team Technician IV	442010-3800	100% General	11,390
43236	Civil Engineer VI	442010-3800	100% General	52,134
11367	Land Surveyor	442010-3800	100% General	11,501
11392	Civil Engineer VI	442010-2954	100% General	27,245
40154	Program Assistant II	442010-2954	100% General	10,072
12025	Civil Engineer VI	442010-2954	100% General	10,367
40153	Tech Support Spec III	442010-2954	100% General	6,591
			Total	\$668,314

Funding in the amount of \$668,314 which is budgeted for the current positions, will either be lapsed or closed to control resulting in a net zero increase in budgeted funds.

Class 057	To cover costs of books and periodicals.
Class 059	To cover the costs for the four full-time temporary positions for coordination and execution of NHDES's management of investments in dam infrastructure projects.
Class 060	To cover benefits for full and part-time personnel.
Class 066	To cover costs for employee training.
Class 070	To cover instate travel to project sites and outreach/public meetings.
Class 072	To cover grants to entities for infrastructure projects.
Class 080	To cover out-of-state technical training travel costs for staff.
Class 102	To cover costs of dam rehabilitation construction contracts.
Class 302	To cover costs for rehabilitation of dams by in-house construction crews.

The following is intended to address the seven questions required by the Fiscal Committee with respect to the acceptance of federal and other funds in which new positions are established or extended:

1. **List All Personnel by Classification, Labor Grade, and Salary:** four fulltime, temporary positions as listed below:
 - **Two Civil Engineer V** (LG 30, \$64,662 - \$92,891) to provide for the procurement and management of contracts for civil engineering design services, as well as construction, and oversight of the performance of contracted work for state-owned dams.
 - **Environmentalist IV** (LG 27, \$56,218 - \$80,106) to assume responsibility for all the environmental permitting and compliance associated with the additional rehabilitation projects on state owned dams, including wetland permits, water quality certificates and Storm Water Pollution Prevention Plans, and others as required by Section 404 of the Clean Water Act, NH RSA 482-A, the National Environmental Policy Act and the Historic Preservation Act. The position will be responsible for conducting site investigations and all public outreach requirements associated with environmental impacts necessary to ensure that the projects are completed in a manner that benefits all stakeholders.

- **Environmental Program Manager** (LG 27, \$56,218 - \$80,106) to establish the new grant program to fund the rehabilitation of municipally owned dams and provide project management and administration of the funds granted to the communities for the planning, design and construction of dam repair or removal projects, including soliciting and processing project applications, funding agreements, and disbursements. As the primary point of contact for all Dam Safety permitting, this position will be integral in providing a preliminary review of all technical and supporting data to ensure resources needed to review the permit applications are used in the most efficient manner to achieve the goal of obligating all funds by December 31, 2024, and fully expending the funds by December 31, 2026.
2. ***Explain the Nature, Need, and Duration of the Program:*** The American Rescue Plan Act of 2021 is providing funds to states through the Coronavirus State Fiscal Recovery Fund to assist states with the economic impacts of the pandemic. To this end, this portion of those funds is earmarked for state owned dam rehabilitations and grants to municipalities for dam rehabilitations.
 3. ***What is the Relationship to Existing Programs?***
The ARPA funds will increase by a factor of four the existing appropriations per biennium for the rehabilitation of state-owned dams, and will establish a new temporary grant program for the rehabilitation of municipally owned dams.
 4. ***Has a Substantially Similar Program been Requested of the Legislature and Denied?*** No.
 5. ***Why was this Program and Its Funding Not Included in the Operating Budget?*** The federal grant funds were not available at the time the department created its FY22/23 Operating budget request. Management of the overall ARPA funds is being coordinated through GOEFFR.
 6. ***Can any Portion of the Funds Be Utilized if Either, None, or Only Part of the Positions are Authorized?*** No, the contracts, and grant portions of the requested funding could not be effectively awarded without approval of the positions. Current staff resources would preclude timely review and processing of work scope authorizations, reports, engineering plans and grant applications. Current staffing is not sufficient to allow timely execution of the work required under the federal requirements.
 7. ***What is the Estimate of the Amount of Funding Required to Continue the Positions in Future Years?***
It is anticipated that the positions are likely to continue until the ARPA funding expires on December 31, 2026. The estimated cost of these positions in FY 24/25 is \$455,931.

REQUESTED ACTION

Pursuant to RSA 14:30-a, VI, authorize the Department of Environmental Services (NHDES) to amend Fiscal Item FIS 22-195, approved by the Fiscal Committee on May 20, 2022, and approved by Governor and Council on June 1, 2022, Item #74 by transferring funds in the amount of \$905,000 between class lines, effective upon Fiscal Committee and Governor & Council approval through June 30, 2023. Funding is 100% Federal Funds. This is an allowable use of ARP FRF funds under Section 602 (c)(1)(C) for the provision of government services to the extent of the reduction in revenue.

EXPLANATION

The American Rescue Plan Act (ARPA) of 2021, is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to expedite the United States' recovery from the economic and health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergency, responding to workers performing essential work during the COVID -19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure.

Of the \$35 million in federal funds awarded, \$30 million was to be allocated for the rehabilitation of state-owned dams, and \$5 million was to be allocated for grants to municipalities for the rehabilitation of

The Honorable Karen Umberger, Chairman
Fiscal Committee of the General Court and
His Excellency, Governor Christopher T. Sununu
and The Honorable Council

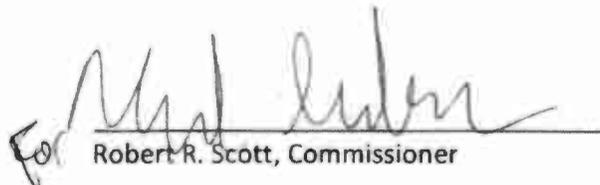

Page 3 of 3

municipally owned high hazard dams. To support the existing NHDES Dam Bureau staff in the rehabilitation of state-owned dams, four additional full-time temporary positions were created to accomplish rehabilitation work within the deadlines established in ARPA, under which the funds for all work must be obligated by December 31, 2024, and fully expended by December 31, 2026. One of the four positions, an Environmentalist IV, has been hired and tasked with not only assuming responsibility for all the environmental permitting and compliance associated with the rehabilitation projects on state-owned dams, but is also tasked with completing and confirming wetland delineation and obtaining bathymetric data at these state-owned dam sites. Historically, after performing a wetland delineation or bathymetric survey, all data was captured using conventional survey techniques which required multiple survey staff and resources to complete. Now, with the advent of GPS technology, wetland and bathymetric data can be more accurately captured real-time by one individual completing the tasks. NHDES is requesting the transfer of \$40,000 from Class 102 Contracts for Program Services to Class 030 Equipment for the purchase of a GPS system capable of capturing the survey-grade data, which will save the NHDES Dam Bureau resources and time.

The other additional full-time temporary positions in the Engineering and Construction Section also require the use of CAD engineering software to oversee work performed with engineering consultants and construction contractors. The price of this software has increased significantly since the original request, and therefore NHDES is requesting the transfer of \$15,000 from Class 102 Contracts for Program Services to Class 038 Technology Software to cover the price increases for the software. Without this software, the staff will be limited in their ability to design and assist on ARPA projects.

The \$5 million in ARPA funds were set aside for grants to municipalities to assist with repair and reconstruction of locally owned high hazard dams. NHDES has received nine (9) applications for grants from municipalities totaling \$5,850,000. NHDES is requesting the transfer of \$850,000 from Class 102 Contracts for Program Services to Class 072 Grants in order to fully fund each project. This transfer will help the municipalities in their efforts to fully complete their projects as outlined in the applications.

We respectfully request your approval of this item.

DATE 5/31/2023

ITEM # 160

REQUESTED ACTION

Pursuant to RSA 14:30-a, VI and RSA 124:15, the Department of Administrative Services (DAS) is seeking approval on behalf of State Agencies to amend the accept and expend of American Rescue Plan Act (ARPA) State Fiscal Recovery Funds (SFRF) requests by extending the end date for funding, new positions, and/or new Class 046-Consultants, created in relation to the acceptance of ARPA SFRF funds, from June 30, 2023 to June 30, 2024, effective upon approval of the Fiscal Committee and the Governor and Executive Council. 100% Federal Funds.

EXPLANATION

The Department of Administrative Services is seeking approval, on behalf of the State Agencies listed in Attachment A, to extend the effective date of the attached items from June 30, 2023 to June 30, 2024. This extension is allowable under the "procedural rules amendment" approved at the previous Fiscal Committee meeting on April 21, 2023. All items included in the attachment have been previously submitted by the respective state agency responsible for the program and approved by both the Fiscal Committee and Governor and Executive Council. In addition, the Governor's Office of Emergency Relief and Recovery (GOFERR) has reviewed the attachment and concurs with the extensions requested.

While all ARPA SFRF must be obligated by December 31, 2024, and expended by December 31, 2026, this request only serves to authorize agencies' program balances that are unspent as of June 30, 2023, as well as positions and consultants created pursuant to RSA 124:15, to carry forward into FY24 and reauthorize projects or programs that were already intended to continue utilizing authorized ARPA SFRF into the next biennium. This will also grant agencies in coordination with GOFERR time to further evaluate projects and programs as the ARPA SFRF obligation deadline approaches in order to

The Honorable Ken Weyler, Chairman
Fiscal Committee of the General Court

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 2

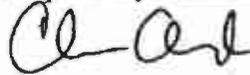

ensure any funds that may need to be reallocated to other uses have sufficient time to do so. Any request to reallocate an existing budget or repurpose funds for new or existing projects will require future Fiscal Committee and Governor and Council approvals and are not contemplated in this item.

If this item is not timely approved, the State would need to issue layoff notices to employees hired into these federally funded positions, created under the original ARPA request, agencies would halt work on time-sensitive projects or payments on existing contracts, and ongoing programs would be unable to issue or follow through on awards. Further, each agency would then need to submit a retroactive request to July 1, 2023 for approval to reauthorize the positions and funding; however, the retroactive requests would not eliminate the need to issue layoff notices in June 2023.

Typically, agencies budget for known federal grants in the upcoming biennial budget; however, the budget guidance issued in August 2022 instructed Agencies to exclude all COVID-related funding from their FY24-FY25 budget submissions in order to maintain the authorization methodology, compliance protocols, and audit trail that had become standard for use and oversight of ARPA SFRF. Moreover, although the funding is authorized by the federal government beyond June 30, 2023, including this one-time funding would have erroneously inflated the FY24-FY25 State budget.

In the event that Federal Funds are no longer available, General Funds will not be requested to support these programs. The Department of Administrative Services seeks approval of this request.

Respectfully submitted,

Charles M. Arlinghaus
Commissioner

EXPLANATION

The American Rescue Plan Act (ARPA) of 2021, is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to expedite the United States' recovery from the economic and health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergency, responding to workers performing essential work during the COVID -19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure.

NHDES has been awarded a total of \$35,000,000 to fund the rehabilitation of state and municipally owned dams to meet current dam safety standards. Of the \$35 million in federal funds awarded, \$29.2 million was allocated for

the rehabilitation of state-owned dams, and \$5.8 million was allocated for grants to municipalities for the rehabilitation of municipally owned high hazard dams. The rehabilitation of state-owned dams is largely performed on a force account basis by the NHDES Dam Bureau Engineering and Construction Section staff, consisting of three civil engineers, including the Section Supervisor, and two land surveyors who design and oversee the projects, as well as a nine-person construction crew that performs the actual construction. Some work is also performed on a contract basis with engineering consultants and construction contractors. To support the existing NHDES Dam Bureau staff, four additional full-time temporary positions were created to accomplish the rehabilitation work.

NHDES original personnel costs were budgeted through the end of FY2024. Given additional guidance from the US Treasury Department, personnel costs have been budgeted through the end of the ARPA Program. NHDES is requesting the transfer of funds from different classes to cover these costs to best use the available appropriation.

NHDES is requesting to transfer funds as shown below:

- Class 018 To cover the cost for overtime for personnel.
- Class 023 To cover costs for heat, electricity, and water.
- Class 027 To cover costs for Department of Information Technology services.
- Class 028 To cover costs for state office building rent and related services.
- Class 038 To cover the costs for technology software.
- Class 040 To cover the program share of statewide indirect costs.
- Class 042 To cover the program share of additional fringe benefit costs.
- Class 050 The additional amount of \$369,396 will not be used for new positions. Employee support from existing DES organizational units will be utilized to administer this program. These funds will be used to supplant funding of the following full-time positions. FAQ 48 from US Treasury states that payroll and benefits of employees managing new grant programs established with FRF is an allowable use. Funding in the amount of \$369,396 which is budgeted for the current positions, will either be lapsed or closed to control resulting in a net zero increase in budgeted funds.

The following information is provided in accordance with the Budget Officer's instructional memorandum dated April 17, 1985.

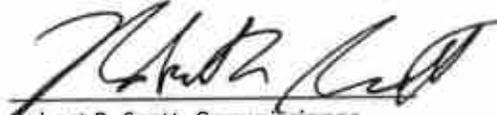

- 1) Does the transfer involve continuing programs or one-time projects?
This transfer is for continuing ARPA program.
- 2) Is this transfer required to maintain existing program level or will it increase the program level?
This transfer is to maintain existing ARPA program level.
- 3) Cite any requirements which make this program mandatory. n/a
- 4) Identify the source of the funds on all accounts listed on this transfer.
American Rescue Plan Act of 2021 (ARPA)
- 5) Will there be any effect on revenue if this transfer is approved or disapproved? No.
- 6) Are funds expected to lapse if this transfer is not approved? No.
- 7) Are personnel services involved? If yes, answer the following:
Yes.
 - a. Number of positions budgeted in each account. 4
 - b. Number of positions filled in each account. 3
 - c. Reason for vacant positions. Staff promotion
 - d. Have any positions been transferred previously in these accounts? No

The Honorable Ken Weyler, Chairman
Fiscal Committee of the General Court and
His Excellency, Governor Christopher T. Sununu
and The Honorable Council

Page 5 of 5

e. Will any positions be transferred as a result of this request? No

We respectfully request your approval of this item.

	Total	\$26,951,012	\$0	\$26,951,010

EXPLANATION

The American Rescue Plan Act (ARPA) of 2021, is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to expedite the United States' recovery from the economic and health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergency, responding to workers performing essential work during the COVID -19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure.

NHDES has been awarded a total of \$35,000,000 to fund the rehabilitation of state and municipally owned dams to meet current dam safety standards. Of the \$35 million in federal funds awarded, \$29.2 million was allocated for the rehabilitation of state-owned dams, and \$5.8 million was allocated for grants to municipalities for the rehabilitation of municipally owned high hazard dams. The rehabilitation of state-owned dams is largely performed on a force account basis by the NHDES Dam Bureau Engineering and Construction Section staff, consisting of three civil engineers, including the Section Supervisor, and two land surveyors who design and oversee the projects, as well as a nine-person construction crew that performs the actual construction. Some work is also performed on a contract basis with engineering consultants and construction contractors.

NHDES has determined that additional funding should be allocated to contracts for program services to provide as needed engineering and construction services for repair/reconstruction projects on dams owned by the State of New Hampshire.

NHDES is requesting to transfer funds as shown below:

Class 020	To reduce funds for office and field supplies.
Class 023	To reduce costs for heat, electricity, and water.
Class 027	To reduce costs for Department of Information Technology services.
Class 028	To reduce costs for state office building rent and related services.
Class 037	To reduce costs for technology hardware.
Class 040	To reduce costs for program share of statewide indirect costs.
Class 042	To reduce costs for program share of additional fringe benefit costs.
Class 047	To reduce the cost of building and grounds maintenance.
Class 059	To reduce costs for full-time temporary position.
Class 060	To reduce costs of benefits for full and part-time personnel.
Class 070	To reduce costs of in-state travel to project sites and outreach/public meetings.
Class 080	To reduce costs of out-of-state technical training travel costs for staff.
Class 102	To cover costs of dam rehabilitation construction contracts.

The following information is provided in accordance with the Budget Officer's instructional memorandum dated April 17, 1985.

- 1) Does the transfer involve continuing programs or one-time projects?
This transfer is for continuing ARPA program.
- 2) Is this transfer required to maintain existing program level or will it increase the program level?
This transfer is to maintain existing ARPA program level.
- 3) Cite any requirements which make this program mandatory. n/a
- 4) Identify the source of the funds on all accounts listed on this transfer.

The Honorable Ken Weyler, Chairman
Fiscal Committee of the General Court and
His Excellency, Governor Christopher T. Sununu
and The Honorable Council

- 5) Will there be any effect on revenue if this transfer is approved or disapproved? No.
- 6) Are funds expected to lapse if this transfer is not approved? No.
- 7) Are personnel services involved? If yes, answer the following:
Yes.
 - a. Number of positions budgeted in each account. 4
 - b. Number of positions filled in each account. 2
 - c. Reason for vacant positions. Staff promotion and retirement
 - d. Have any positions been transferred previously in these accounts? No
 - e. Will any positions be transferred as a result of this request? No

We respectfully request your approval of this item.

APPROVED G & C

DATE 6/25/2025

ITEM # 250

REQUESTED ACTION

Pursuant to RSA 14:30-a, VI and RSA 124:15, the Department of Administrative Services (DAS) is seeking approval on behalf of State Agencies to amend the accept and expend of American Rescue Plan Act (ARPA) State Fiscal Recovery Funds (SFRF) requests on the attached list by extending the end date for funding, new positions, and/or new Class 046-Consultants, created in relation to the acceptance of ARPA SFRF funds, from June 30, 2025 to December 31, 2026, effective upon approval of the Fiscal Committee and the Governor and Executive Council. 100% Federal Funds.

EXPLANATION

The Department of Administrative Services is seeking approval, on behalf of the State Agencies listed in Attachment A, to extend the effective through date from June 30, 2025 to December 31, 2026. All items included in the attachment have been previously submitted by the respective state agency responsible for the program and approved by both the Fiscal Committee and Governor and Executive Council. In addition, the Governor's Office of Emergency Relief and Recovery (GOFERR) has reviewed the attachment and concurs with the extensions requested.

Approval of this request will allow ARPA SFRF program balances that are unspent as of June 30, 2025, as well as positions and consultants created pursuant to RSA 124:15, to carry forward into Fiscal Year 2026. The extension is in accordance with ARPA SFRF federal rules that require all funding to be spent by December 31, 2026. Any request to reallocate an existing budget or repurpose funds for new or existing projects will require future Fiscal Committee and Governor and Council approvals and are not contemplated in this item.

The Honorable Ken Weyler, Chairman
Fiscal Committee of the General Court

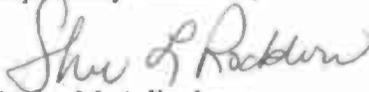

Her Excellency, Governor Kelly A. Ayotte
and the Honorable Council
Page 2 of 2

If this item is not timely approved, the State would need to issue layoff notices to employees hired into federally funded positions created under the original ARPA request; agencies would halt work on time-sensitive projects or payments on existing contracts; and ongoing programs would be unable to issue or follow through on awards. Further, each agency would then need to submit a request for approval to reauthorize the positions and funding; however, the requests might not eliminate the need to issue layoff notices in June 2025 due to layoff notice provisions.

Typically, agencies budget for known federal grants in the biennial budget process; however, these are not on-going programs but rather COVID-related grant funding that will expire on December 31, 2026. No additional funding is anticipated to be received for these projects in the FY26-FY27 biennium.

In the event that Federal Funds are no longer available. General Funds will not be requested to support these programs. The Department of Administrative Services seeks approval of this request.

Respectfully submitted,

FOR 
Charles M. Arlinghaus
Commissioner
