## REQUESTED ACTION

Authorize the Department of Administrative Services to exercise an extension to an existing contract (Contract #8003208) with T-Mobile USA, Inc.(VC#176141), Bellevue, WA, for wireless cellular data services, by extending the completion date from March 31, 2026, to March 31, 2028, with no change to the price limitation of \$1,130,683.21, effective upon Governor and Executive Council approval. The original contract (Contract #8003208) was approved by Governor and Executive Council on May 3, 2023, item #158.

## EXPLANATION

As previously stated, the original contract was approved by the Governor and Executive Council on May 3, 2023, item #158.

The Department of Administrative Services, through the Bureau of Purchase and Property, evaluated service offerings and market pricing based on the active wireless cellular contracts through the National Association of Procurement Officials (NASPO). The results of this assessment identified superior coverage and financial benefits of the existing contracts established with Verizon and T-Mobile directly. The department entered into negotiations with both incumbent contractors and reached agreement to extend for two years with pricing at or below the current contracted rates maintaining the represented financial benefits from the original contract.

Upon approval this contract will continue to provide agencies with access to wireless services throughout the state ranging from voice-only plans to voice/text/data/smartphone, and mobile hot spot capabilities. The cost comparisons to the NASPO cooperative contracts and alternatives in the market confirm that the 2-year extension is in the best interest of the State. Both T-Mobile (Contract 8003208) and Verizon (Contract #8003207) have held fixed rates on all active plans as well as offered reduced rates and expanded plan offerings to best align with agencies' needs. T-Mobile continues to offer the lowest available rates which resulted in a savings of 9.83% over the past 3 years when compared to the average cost for plans from the expiring contracts.

The Department of Administrative Services has determined that the vendor is in good standing with the Secretary of State's Office, has secured the required levels of insurance, and has provided evidence of authority to execute and be bound by the contract. The Department of Administrative Services also requested and received approval from the Commissioner of Department of Information Technology, 2023-044A. Documents supporting these assertions are available at the agency, for review upon request.

Based on the foregoing, I am respectfully recommending approval of this contract amendment with T-Mobile USA, Inc.

Respectfully submitted,

---

**Requirements for the Government Unlimited Rate Plan with Subsidy Allowance and First Responder Government Rate Plan with Subsidy Allowance**

- 1) For the Subsidy to be effective, Customer will activate a line of Service under its Master Account. Each line of Service must be activated and maintained for at least 24 months from the date of activation without termination of any line of Service (the "Subsidy Term");
- 2) Each line of Service may be suspended for up to a 90-day period following the activation ("Suspension Period"); however, the Subsidy Term for the line of Service will be extended by the amount of time of any such suspension. One (1) Suspension Period per 12 months is permitted per line of Service;
- 3) Each line of Service must be activated in accordance with the terms of the Agreement;
- 4) Each line of Service which is activated under the Master Account can only qualify once for a device subsidy during the Initial Term;
- 5) The subsidy cannot be combined with any other discounts, credits or promotional offers; and
- 6) Customer's account with T-Mobile must be in good standing to receive the subsidy.

**Minimum Activation Period/Termination.** If any line of Service that received a Subsidy or any other future credit that T-Mobile may agree to provide to Customer is terminated prior to the end of the Subsidy Term, then Customer agrees to pay or reimburse T-Mobile the pro rata portion of the Subsidy that has been credited by T-Mobile to the Customer for each terminated line of Service (for purposes of illustration only, if Customer terminates the applicable line 12 months following activation, and if T-Mobile has issued a subsidy of \$150 for such line, then Customer will reimburse T-Mobile \$75 (i.e. 50% [12/24 months] X \$150) for such terminated line).
