REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Brox Industries, Inc. (Vendor 177569) of Andover, MA, on the basis of a low bid of \$6,491,737.25 for resurfacing and preservation of various roadway sections on the Eastern Turnpike located on I-95 in Seabrook and Hampton Falls, US 4/NH 16 in Newington and Dover, and NH 16 in Dover and Rochester (Project: Seabrook-Newington-Dover-Rochester, 44504), from the date of Governor and Council approval through September 25, 2026, unless amended by the Department in accordance with the Standard Specifications. 100% Turnpike Funds.

Funds are available in the following account for Fiscal Years 2026 and 2027, with the authority to adjust encumbrances between fiscal years within the price limitation through the Budget Office, if needed and justified:

Funding is available as follows:	<u>FY 2026</u>	<u>FY 2027</u>
04-96-96-961017-7025		
Turnpike Renewal & Replacement		
400-500870 Highway Contract Payments	\$5,200,000.00	\$1,291,737.25

2. Further authorize that a contingency in the amount of \$324,586.86 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2027</u>
04-96-96-961017-7025	
Turnpike Renewal & Replacement	
400-500870 Highway Contract Payments	\$324,586.86

EXPLANATION

This project is part of the Turnpike's Renewal and Replacement Program. This project involves resurfacing and preservation of various roadway sections on the Eastern Turnpike located on I-95 in Seabrook and Hampton Falls, US 4/NH 16 in Newington and Dover, and NH 16 in Dover and Rochester.

The preservation work consists of crack sealing at the following locations:

- I-95 Northbound and Southbound from the NH/MA (MM 0) state border in Seabrook to a pavement joint at MM 3.30 in Hampton Falls.
- US 4/NH 16 Northbound and Southbound at a pavement joint at Exit 1 (MM 1.8) in Newington to a pavement joint at 0.09 miles south of the Toll Plaza (MM 5.4) in Dover.

Resurfacing sections are in the following locations:

- NH 16 Northbound and Southbound from a pavement joint at MM 12.7 (north of Exit 9) in Dover to a pavement joint at MM 17.22 (south of the All Electronic Tolling facility) in Rochester.
- The overpass bridge on Tebbetts Road in Rochester.
- Exit 7 and Exit 8 ramps on NH 16 in Dover.

The preservation sections are in good condition with small cracks that, if properly sealed, will extend the life of the pavement. The resurfacing segments noted are experiencing transverse and longitudinal cracking due to the age of the pavement and high volume of traffic. The deterioration is beyond addressing with preservation efforts and milling and paving the roadways is required. The proposed improvements will extend the life of these assets and will return them to the preservation schedule for the future.

The proposed contingency amount is 5% of the contract amount. This project was quantified based on field observations, aerial photos, and as-built plans. Field adjustments may be required due to varying field conditions. In addition, the sections will continue to deteriorate through the 2025-2026 winter season.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 100% Turnpike Renewal and Replacement Program (0% Federal funds).

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested. The Department of Transportation has determined that the vendor is in good standing with the Secretary of State's Office, has secured the required levels of insurance, and has provided evidence of authority to execute and be bound by the contract. Documents supporting these assertions are available at the agency, for review upon request.

Sincerely,

William J. Cass, P.E.
Commissioner

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project involves resurfacing and preservation of various roadway sections on the Eastern Turnpike located on I-95 in Seabrook and Hampton Falls, US 4/NH 16 in Newington and Dover, and NH 16 in Dover and Rochester.

The preservation work consists of crack sealing at the following locations:

I-95 Northbound and Southbound from the NH/MA (MM 0) state border in Seabrook to a pavement joint at MM 3.30 in Hampton Falls.

US 4/NH 16 Northbound and Southbound at a pavement joint at Exit 1 (MM 1.8) in Newington to a pavement joint at 0.09 miles south of the Toll Plaza (MM 5.4) in Dover.

Resurfacing sections are in the following locations:

NH 16 Northbound and Southbound from a pavement joint at MM 12.7 (north of Exit 9) in Dover to a pavement joint at MM 17.22 (south of the All Electronic Tolling facility) in Rochester.

The overpass bridge on Tebbetts Road in Rochester.

Exit 7 and Exit 8 ramps on NH 16 in Dover.

FEDERAL FUNDING: 0% (100% Turnpike Renewal and Replacement Program)

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. This project was quantified based on field observations, aerial photos, and as-built plans. Field adjustments may be required due to varying field conditions. In addition, the sections will continue to deteriorate through the 2025-2026 winter season.

PROJECT INITIATED: This project was initiated through the Turnpike Renewal and Replacement Program (TRR).

PROJECT EXPLANATION: The preservation sections are in good condition with small cracks that if properly sealed will extend the design life of the pavement. The resurfacing segments noted are experiencing transverse and longitudinal cracking due to the age of the pavement and high volume of traffic. The deterioration is beyond addressing with preservation efforts and milling and paving the roadways is required. The proposed improvements will extend the life of these assets and will return them to the preservation schedule for the future.

TRAFFIC IMPLICATION: Resurfacing work will be done at night during off-peak timeframes with normal traffic patterns to be re-established prior to AM travel periods for all locations. Initial timeframes are listed below and will be adjusted in the field as required to provide safe conditions.

Sunday through Thursday NB: 9:00pm to 5:00am

Monday through Friday SB: 9:00pm to 5:00am

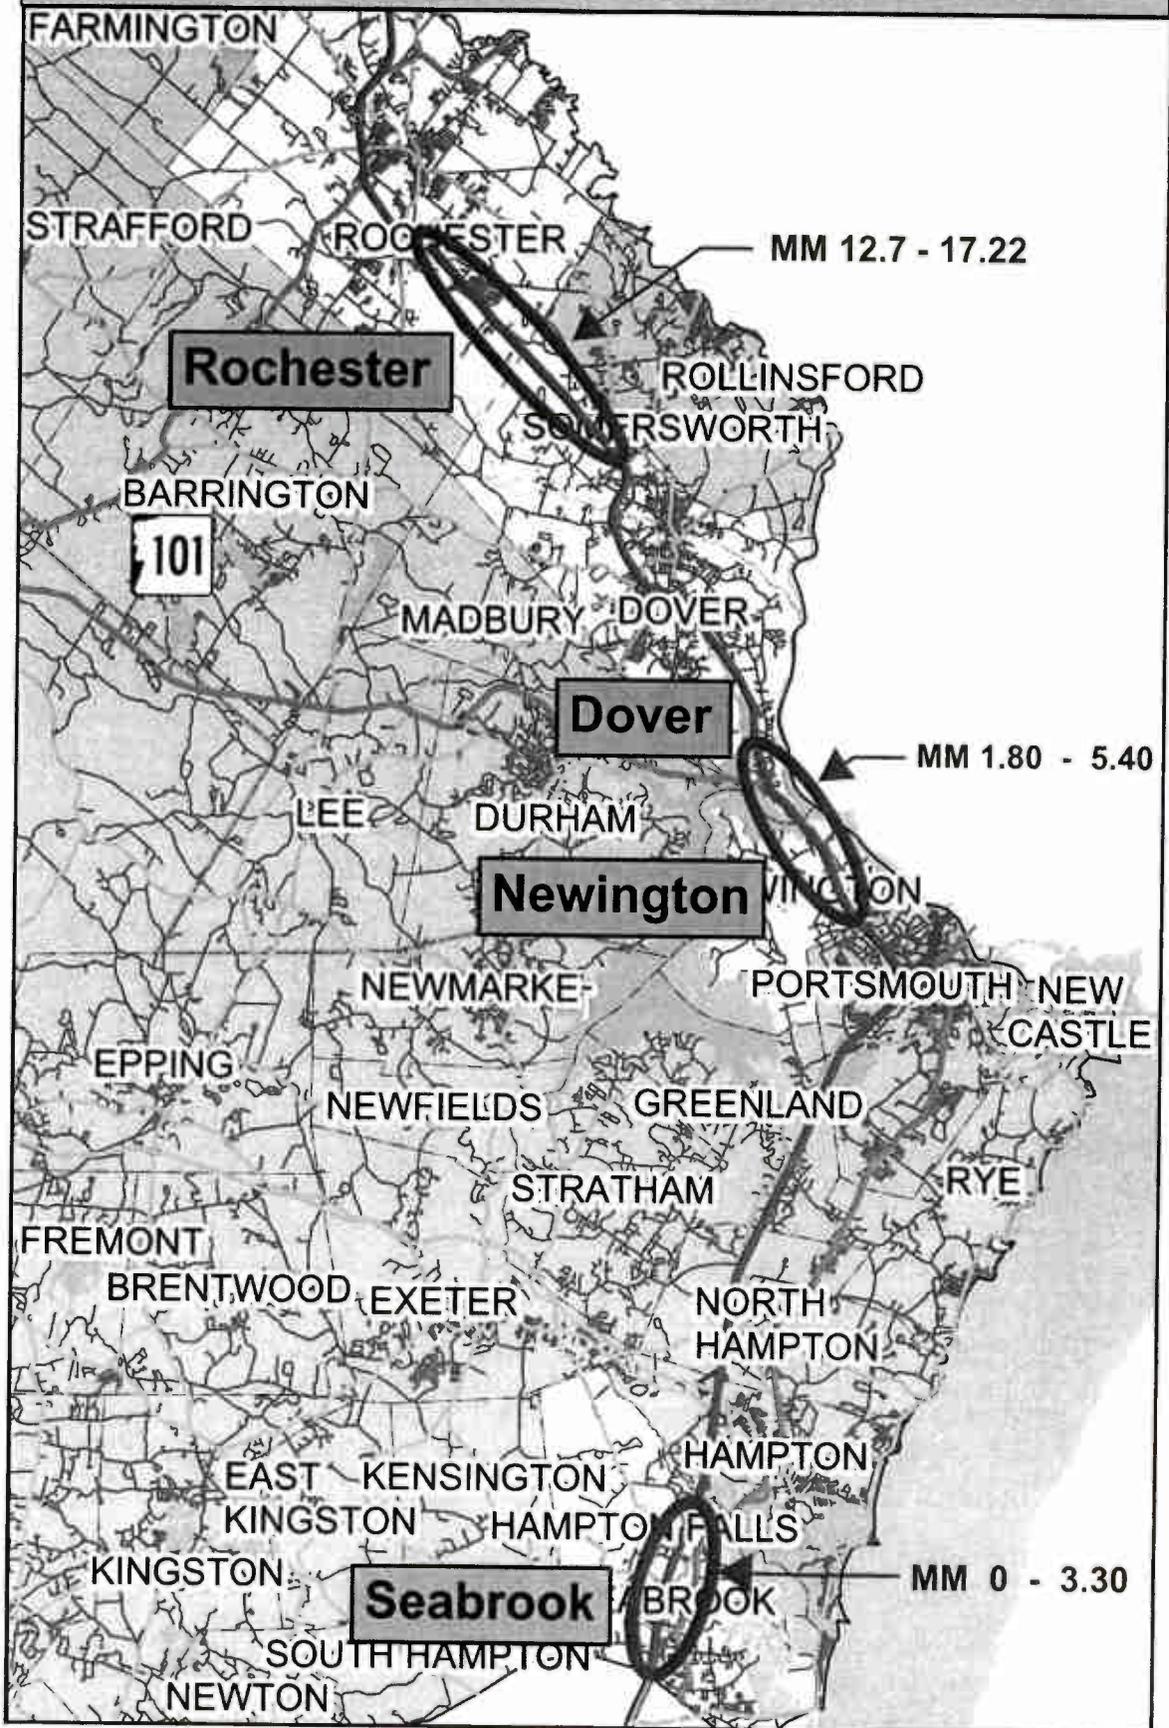

In addition to the times above, the crack sealing will be allowed as follows:

Sunday through Thursday NB: 10:00am to 2:00pm

Monday through Friday SB: 10:00am to 2:00pm
