INFORMATIONAL ITEM

The Department of Transportation requests placing this item on the Consent Calendar.

In accordance with the requirements approved by Governor and Executive Council March 23, 2022, Item #47, the NH Department of Transportation is to submit on an annual basis a status report of all active state and federally funded locally administered projects.

Attached please find the NHDOT 2025 Local Public Agency (LPA) Annual Report.

EXPLANATION

Governor and Executive Council Item #47(1) approved on March 23, 2022, authorized the Department of Transportation to enter into local project agreements to provide funding and services within available state and federal funding programs for transportation projects located throughout the state. These projects have been identified and selected as part of the State's Ten-Year Plan and will be administered through the Department's local project administration process. These agreements, between the State and local public agencies delineate responsibilities for providing services necessary to manage the design and construction of a state or federally funded locally managed project under the applicable provisions of state law (RSA 228 thru 242) and/or federal highway statutes and regulations (United States Code Title 23 and Title 49).

In addition, to assure the oversight of the Governor and Executive Council, the Department of Transportation was authorized as part of Item #47(2) to prepare an annual status report of all active state and federally funded, locally administered projects. Information in the annual status report includes project city/town (name), project number, scope of work, budget, and schedule. The Department of Transportation is submitting this annual status report as an informational item to the Governor and Executive Council.

It is respectfully requested that this item be accepted.

Sincerely,

William J. Cass, PE
Commissioner

NHDOT 2025 Local Public Agency (LPA) Annual Report
Locally Administered Projects with State and/or Federal Funds
Effective Date - October 1, 2025

Introduction:

In the late 1990's, the Department formalized a municipally managed process for New Hampshire towns and cities to receive federal and / or state funds through the NHDOT as a sub-recipient. The implementation of this municipally managed process allowed for more local decision making and local control of transportation projects that target local infrastructure improvements. As part of this process, NHDOT retained an oversight and approval role ensuring proper use of federal or state funds and consistent implementation of transportation standards and practices statewide. Over time and in cooperation with Federal Highway Administration (FHWA), the municipally managed process has evolved, grown, and is now referred to as the NHDOT Local Public Agency (LPA) Program. The following manuals describe NHDOT's Local Public Agency process for state and federally funded projects:

[LPA Federal Aid Manual.pdf \(nh.gov\)](#)

[LPA State Bridge Aid Process.pdf \(nh.gov\)](#)

[LPA State Highway Aid Process.doc \(nh.gov\)](#)

LPA projects are typically funded with 80% federal or state funds and with a 20% local match, although other funding percentages can be used on a case-by-case basis depending on the individual program.

Currently the LPA program is funded with a variety of funding sources including but not limited to:

Program Acronym	Common State and Federal Funding Sources for LPA projects
SBA	State Bridge Aid Program
SHA	State Highway Aid Program (limited funding – program sun-setting)
TAP	Federal Transportation Alternatives Program
CMAQ	Federal Congestion Mitigation Air Quality Program
MOBRR	Federal Municipally Owned Bridge Rehabilitation and Replacement Program
MOBIL	Federal Municipally Owned Bipartisan Infrastructure Law Program
BRG-LPA-RR	Federal Bridge LPA Rehabilitation and Reconstruction (Larger Local Bridges)
HSIP	Federal Highway Safety Improvement Program
Fed-Aid-LPA	Federal Highway Funds for Local Public Agency Projects
FLAP	Federal Lands Access Program
Ear-NH	Congressionally Designated Spending - Earmarks
SRTS	Federal Safe Routes to School Program (limited funding – program is sun-setting)

The funding programs noted above contribute approximately \$45 million dollars of federal and state funds available annually to local communities thru NHDOT. Additional information about NHDOT's LPA program and funding sources can be found on the Department's website: [Municipalities \(Community Assistance\) | Department of Transportation \(nh.gov\)](#)
