

The State of New Hampshire
Department of Environmental Services

Robert R. Scott, Commissioner

116 - 6/17/26

May 19, 2026

Her Excellency, Governor Kelly A. Ayotte
and The Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Approve Marc Bourgeois' request to perform the following work on Lake Winnepesaukee in Gilford pursuant to NH Department of Environmental Services (NHDES) Wetlands Bureau permit #2025-02847, and in accordance with RSA 482-A:3. No comments were submitted by the Gilford Conservation Commission regarding the project as proposed.

Dredge 82 cubic yards of material from 3,600 square feet of lakebed to improve navigation and docking within existing boat slips, extend an existing 3 foot x 28 foot piling pier by 18 feet for a total length of 46 feet as measured from the reference line and construct a 5 foot x 49 foot piling dock 15 feet East of the existing docking structure on an average of 350 feet of frontage on Governor's Island along Lake Winnepesaukee in Gilford.

NHDES imposed the following conditions as part of this approval:

1. All work shall be done in accordance with the plans by Nobis Group dated August 2025, as received by the NH Department of Environmental Services (NHDES) on February 3, 2026.
2. This permit shall not be effective until it has been recorded in the Belknap County Registry of Deeds and a copy of the recorded permit has been provided to the department as required pursuant to RSA 482-A:3, and Env-Wt 314.02.
3. Appropriate turbidity controls shall be installed prior to construction and maintained during construction such that no turbidity escapes the immediate dredge area; and remain in place until suspended particles have settled and water at the work site has returned to normal clarity as required per Env-Wt 307.10(c).
4. No activity shall be conducted in such a way as to cause or contribute to any violation of surface water quality standards specified in RSA 485-A.
5. Only those structures shown on the approved plans shall be installed or constructed along this frontage as required per Env-Wt 513.22, (a).
6. All portions of the docking structures shall be located at least 20 feet from the abutting property lines and no watercraft shall be secured to the docking facility such that it crosses over the imaginary extension of the property lines over the surface water as required by RSA 482-A:3, XIII.
7. Owners of permanent docking structures which are not maintained so as to be structurally sound and usable for their intended purpose shall remove those docking structures in accordance with Env-Wt 513.22(c), to prevent hazards to public safety, navigation, and recreation.

29 Hazen Drive • PO Box 95 • Concord, NH 03302-0095
(603) 271-3503 • Fax: (603) 271-2867 • TDD Access: Relay NH 1-800-735-2964

8. Pursuant to RSA 270:33, Heating, Agitating, or Other Devices in Public Waters; Safety Hazard, no agitating or heating device installed in accordance with RSA 270:34 shall inhibit or prevent the natural formation of ice in such a manner as to impede either the ingress or egress to or from the ice from any property other than that of the owner of the device.
9. All dredged and excavated material and construction-related debris shall be placed outside of those areas subject to RSA 482-A or RSA-483-B unless a permit for the deposition of materials within those areas has been obtained as required per RSA 482-A:3 or RSA 483-B:5-b respectively.

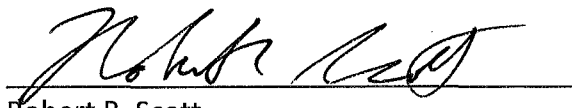

EXPLANATION

NHDES approved this project on March 17, 2026. NHDES supported its decision with the following findings:

1. This is a major impact project per Administrative Rule Env-Wt 513.24(c), the proposed dock is part of a docking system providing five or more slips on the frontage.
2. The applicant has an average of 350 feet of frontage along Lake Winnepesaukee.
3. A maximum of 5 slips may be permitted on this frontage per Rule Env-Wt 513.12, Frontage Requirements for Private and Non-commercial Docking Structures.
4. The proposed docking facility will provide 5 slips as defined per RSA 482-A:2, VIII, and therefore meets Rule Env-Wt 513.12.
5. The NHDES finds that because the project is not of significant public interest and will not significantly impair the resources of Lake Winnepesaukee, a public hearing under RSA 482-A:8 is not required.
6. No concerns were received from abutters nor the local Conservation Commission related to the project.
7. The applicant have provided water depth information documenting the need for the length of the new piers as required per Env-Wt 513.08, Exceptions to Dimensions.
8. The existing docking facility is protected from weather and boat-generated waves from the main navigable channel connecting northern and eastern portions of Lake Winnepesaukee to Weirs Beach and Meredith Bay by a breakwater and man-made peninsula.
9. The slips to be dredged are accessed by a previously dredged channel that will be improved by the proposed dredge.
10. The Department finds that the requested dredge will have lesser long term impacts to the environment and public recreation, commerce and navigation than would result if the applicant was required to reconfigure the exiting dock and protective structures to reach areas of the natural lakebed providing similar water depths.

NHDES Wetlands Bureau permit #2025-02847 application documents are enclosed for review by the Governor and the Executive Council in consideration of this request and in accordance with RSA 482-A:3, II(a), as it is a major project located in New Hampshire public waters.

We respectfully request your approval of this item.

Robert R. Scott
Commissioner

STANDARD DREDGE AND FILL WETLANDS PERMIT APPLICATION

Water Division / Land Resources Management

| SECTION 1 - REQUIRED PLANNING FOR ALL PROJECTS (Env-Wt 306.05; RSA 482-A:3, I(d)(2)) Please use the Wetland Permit Planning Tool (WPPT) , the Natural Heritage Bureau (NHB) DataCheck Tool , the Aquatic Restoration Mapper , or other sources to assist in identifying key features such as: Priority Resource Areas (PRAs) , protected species or habitats , coastal areas, designated rivers, or designated prime wetlands. | |
| Has the required planning been completed? | <input checked="" type="radio"/> Yes <input type="radio"/> No |
| Does the property contain a PRA? If yes, provide the following information: | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| <ul style="list-style-type: none"> • Does the project qualify for an Impact Classification Adjustment (e.g. NH Fish and Game Department (NHFG) and NHB agreement for a classification downgrade) or a Project-Type Exception (e.g. Maintenance or Statutory Permit-by-Notification (SPN) project)? See Env-Wt 407.02 and Env-Wt 407.04. | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| <ul style="list-style-type: none"> • Protected species or habitat? <ul style="list-style-type: none"> ○ If yes, species or habitat name(s): ○ NHB Project ID #: [REDACTED] | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| <ul style="list-style-type: none"> • Bog? | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| <ul style="list-style-type: none"> • Floodplain wetland contiguous to a tier 3 or higher watercourse? | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| <ul style="list-style-type: none"> • Designated prime wetland or duly-established 100-foot buffer? | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| <ul style="list-style-type: none"> • Sand dune, tidal wetland, tidal water, or undeveloped tidal buffer zone? | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| Is the property within a Designated River corridor? If yes, provide the following information: | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| <ul style="list-style-type: none"> • Name of Local River Management Advisory Committee (LAC): • A copy of the application was sent to the LAC on Month: Day: Year: | |

| | |
|-----------------------------------------------------------------------------------------------|---------------------------------------------------------------|
| For dredging projects, is the subject property contaminated? • If yes, list contaminant: | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| Is there potential to impact impaired waters, class A waters, or outstanding resource waters? | <input type="radio"/> Yes <input checked="" type="radio"/> No |

For stream crossing projects, provide watershed size (see [WPPT](#) or Stream Stats):

SECTION 2 - PROJECT DESCRIPTION (Env-Wt 311.04(i))
 Provide a description of the project and the purpose of the project, the need for the proposed impacts to jurisdictional areas, an outline-of the scope of work to be performed, and whether impacts are temporary or permanent.

The applicant is proposing a commercial dredge along a portion of the lake frontage on Lake Winnepesaukee in order to provide safe docking and a navigable passageway into and out of the applicant's boat slip. Due to the existing lake bed elevation the applicant is not able to safely dock their boat on the frontage without risk of grounding or damage. The proposed dredge is the least impacting alternative and impacts to jurisdictional areas have been avoided and minimized to the maximum extent practicable. The proposed dredge area is 3,600SF and will remove 82CY of material. The applicant is also proposing to extend an existing 3' wide pier and construct a 5' by 50' permanent docking structure. The applicant has 2 existing boat slips on their property with 389LF of frontage on the lake. The proposed dock extension and new dock will result in a total of 5 boat slips. The proposed dock extension is necessary to provide safe docking and a stable area to secure their boat in the frontage. The applicant is proposing to a 50' dock length due to the shallow water depths along their frontage and a 5' width to minimize the construction area over the surface of the lake. Turbidity curtains will be installed prior to the dredge and dock construction and will remain in place until the area is stabilized and all particles have settled out of the water column.

SECTION 3 - PROJECT LOCATION
 Separate wetland permit applications must be submitted for each municipality within which wetland impacts occur.

SECTION 7 - RESOURCE-SPECIFIC CRITERIA ESTABLISHED IN Env-Wt 400, Env-Wt 500, Env-Wt 600, Env-Wt 700, OR Env-Wt 900 HAVE BEEN MET (Env-Wt 313.01(a)(3))

Describe how the resource-specific criteria have been met for each chapter listed above (please attach information about stream crossings, coastal resources, prime wetlands, or non-tidal wetlands and surface waters):
The proposed project will not impact any coastal resources or prime wetlands and does not include any stream crossings. Env-Wt 600, Env-Wt 700 and Env-Wt 900 are not applicable to the proposed project.

The proposed dock extension and dock construction are designed and classified to meet the applicable criteria specified in Env-Wt 513.

The proposed dredging activities will be designed and classified consistent with the applicable criteria specified in Env-Wt 523 for Non-tidal dredging projects.

SECTION 8 - AVOIDANCE AND MINIMIZATION

Impacts within wetland jurisdiction must be avoided to the maximum extent practicable (Env-Wt 313.03(a)).* Any project with unavoidable jurisdictional impacts must then be minimized as described in the [Wetlands Best Management Practice Techniques For Avoidance and Minimization](#) and the [Wetlands Permitting: Avoidance, Minimization and Mitigation fact sheet](#). For minor or major projects, a functional assessment of all wetlands on the project site is required (Env-Wt 311.03(b)(10)).*

Please refer to the application checklist to ensure you have attached all documents related to avoidance and minimization, as well as functional assessment (where applicable). Use the [Avoidance and Minimization Checklist](#), the [Avoidance and Minimization Narrative](#), or your own avoidance and minimization narrative.

*See Env-Wt 311.03(b)(6) and Env-Wt 311.03(b)(10) for shoreline structure exemptions.

SECTION 9 - MITIGATION REQUIREMENT (Env-Wt 311.02)

If unavoidable jurisdictional impacts require mitigation, a mitigation [pre-application meeting](#) must occur at least 30 days but not more than 90 days prior to submitting this Standard Dredge and Fill Permit Application.

Mitigation Pre-Application Meeting Date: Month: Day: Year:

N/A - Mitigation is not required

SECTION 10 - THE PROJECT MEETS COMPENSATORY MITIGATION REQUIREMENTS (Env-Wt 313.01(a)(1c))

Confirm that you have submitted a compensatory mitigation proposal that meets the requirements of Env-Wt 800 for all permanent unavoidable impacts that will remain after avoidance and minimization techniques have been exercised to the maximum extent practicable: I confirm submittal.

N/A – Compensatory mitigation is not required

SECTION 11 - IMPACT AREA (Env-Wt 311.04(g))

For each jurisdictional area that will be/has been impacted, provide square feet (SF) and, if applicable, linear feet (LF) of impact, and note whether the impact is after-the-fact (ATF; i.e., work was started or completed without a permit).

For intermittent and ephemeral streams, the linear footage of impact is measured along the thread of the channel. *Please note, installation of a stream crossing in an ephemeral stream may be undertaken without a permit per Rule Env-Wt 309.02(d), however other dredge or fill impacts should be included below.*

For perennial streams/ivers, the linear footage of impact is calculated by summing the lengths of disturbances to the channel and banks.

Permanent (PERM.) impacts are impacts that will remain after the project is complete (e.g., changes in grade or surface materials).

Temporary (TEMP.) impacts are impacts not intended to remain (and will be restored to pre-construction conditions) after the project is completed.

| JURISDICTIONAL AREA | | PERM. SF | PERM. LF | PERM. ATF | TEMP. SF | TEMP. LF | TEMP. ATF |
|---------------------|------------------------------------------------|-------------|-------------|--------------------------|-------------|-------------|--------------------------|

| | Previously-developed TBZ | | | <input type="checkbox"/> | | | <input type="checkbox"/> |
| | Docking - Tidal Water | | | <input type="checkbox"/> | | | <input type="checkbox"/> |
| TOTAL | | 3,904 | | | | | |

SECTION 12 - APPLICATION FEE (RSA 482-A:3, I)

| |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> MINIMUM IMPACT FEE: Flat fee of \$400. |
| <input type="checkbox"/> NON-ENFORCEMENT RELATED, PUBLICLY-FUNDED AND SUPERVISED RESTORATION PROJECTS, REGARDLESS OF IMPACT CLASSIFICATION: Flat fee of \$400 (refer to RSA 482-A:3, 1(c) for restrictions). |
| <input type="checkbox"/> MINOR OR MAJOR IMPACT FEE: Calculate using the table below: |
| Permanent and temporary (non-docking): 3,600 SF × \$0.40 = \$ 1440 |
| Seasonal docking structure: SF × \$2.00 = \$ |
| Permanent docking structure: 304 SF × \$4.00 = \$ 1216 |
| Projects proposing shoreline structures (including docks) add \$400 = \$ |
| Total = \$ |
| <i>The application fee for minor or major impact is the above calculated total or \$400, whichever is greater = \$ 2,656</i> |

SECTION 13 - PROJECT CLASSIFICATION (Env-Wt 306.05)

Indicate the project classification.

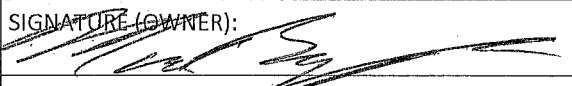

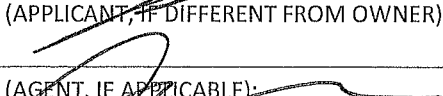

Minimum Impact Project
 Minor Project
 Major Project

SECTION 14 - REQUIRED CERTIFICATIONS (Env-Wt 311.11)

Initial each box below to certify:

| | |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Initials: <i>MS</i> | To the best of the signer's knowledge and belief, all required notifications have been provided. |
| Initials: <i>MS</i> | The information submitted on or with the application is true, complete, and not misleading to the best of the signer's knowledge and belief. |
| Initials: <i>MS</i> | The signer understands that: <ul style="list-style-type: none"> • The submission of false, incomplete, or misleading information constitutes grounds for NHDES to: <ol style="list-style-type: none"> 1. Deny the application. 2. Revoke any approval that is granted based on the information. 3. If the signer is a certified wetland scientist, licensed surveyor, or professional engineer licensed to practice in New Hampshire, refer the matter to the joint board of licensure and certification established by RSA 310-A:1. |
| Initials: <i>MS</i> | If the applicant is not the owner of the property, each property owner signature shall constitute certification by the signer that he or she is aware of the application being filed and does not object to the filing. |

SECTION 15 - REQUIRED SIGNATURES (Env-Wt 311.04(d); Env-Wt 311.11)

| | | |
|----------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------|-----------------------|
| SIGNATURE (OWNER):  | PRINT NAME LEGIBLY: Marc Bourgeois | DATE: <i>10/14/25</i> |

| SIGNATURE (AGENT, IF APPLICABLE):  | PRINT NAME LEGIBLY: Cynthia M. Balcus | DATE: <i>10/14/25</i> |

SECTION 16 - TOWN / CITY CLERK SIGNATURE (Env-Wt 311.04(f))

As required by RSA 482-A:3, I(a)(1), I hereby certify that the applicant has filed four application forms, four detailed plans, and four USGS location maps with the town/city indicated below.

| | |
|-----------------------------------------------------------------|----------------------------------------------------------|
| TOWN/CITY CLERK SIGNATURE: <i>Charly Littlefield, Deputy</i> | PRINT NAME LEGIBLY: Charly Littlefield, Deputy |
| TOWN/CITY: Gilford | DATE: <i>10.16.25</i> |

DIRECTIONS FOR TOWN/CITY CLERK:

Per RSA 482-A:3, l(a)(1)

1. IMMEDIATELY sign the original application form and four copies in the signature space provided above.
2. Return the signed original application form and attachments to the applicant so that the applicant may submit the application form and attachments to NHDES by mail or hand delivery.
3. IMMEDIATELY distribute a copy of the application with one complete set of attachments to each of the following bodies: the municipal Conservation Commission, the local governing body (Board of Selectmen or Town/City Council), and the Planning Board.
4. Retain one copy of the application form and one complete set of attachments and make them reasonably accessible for public review.

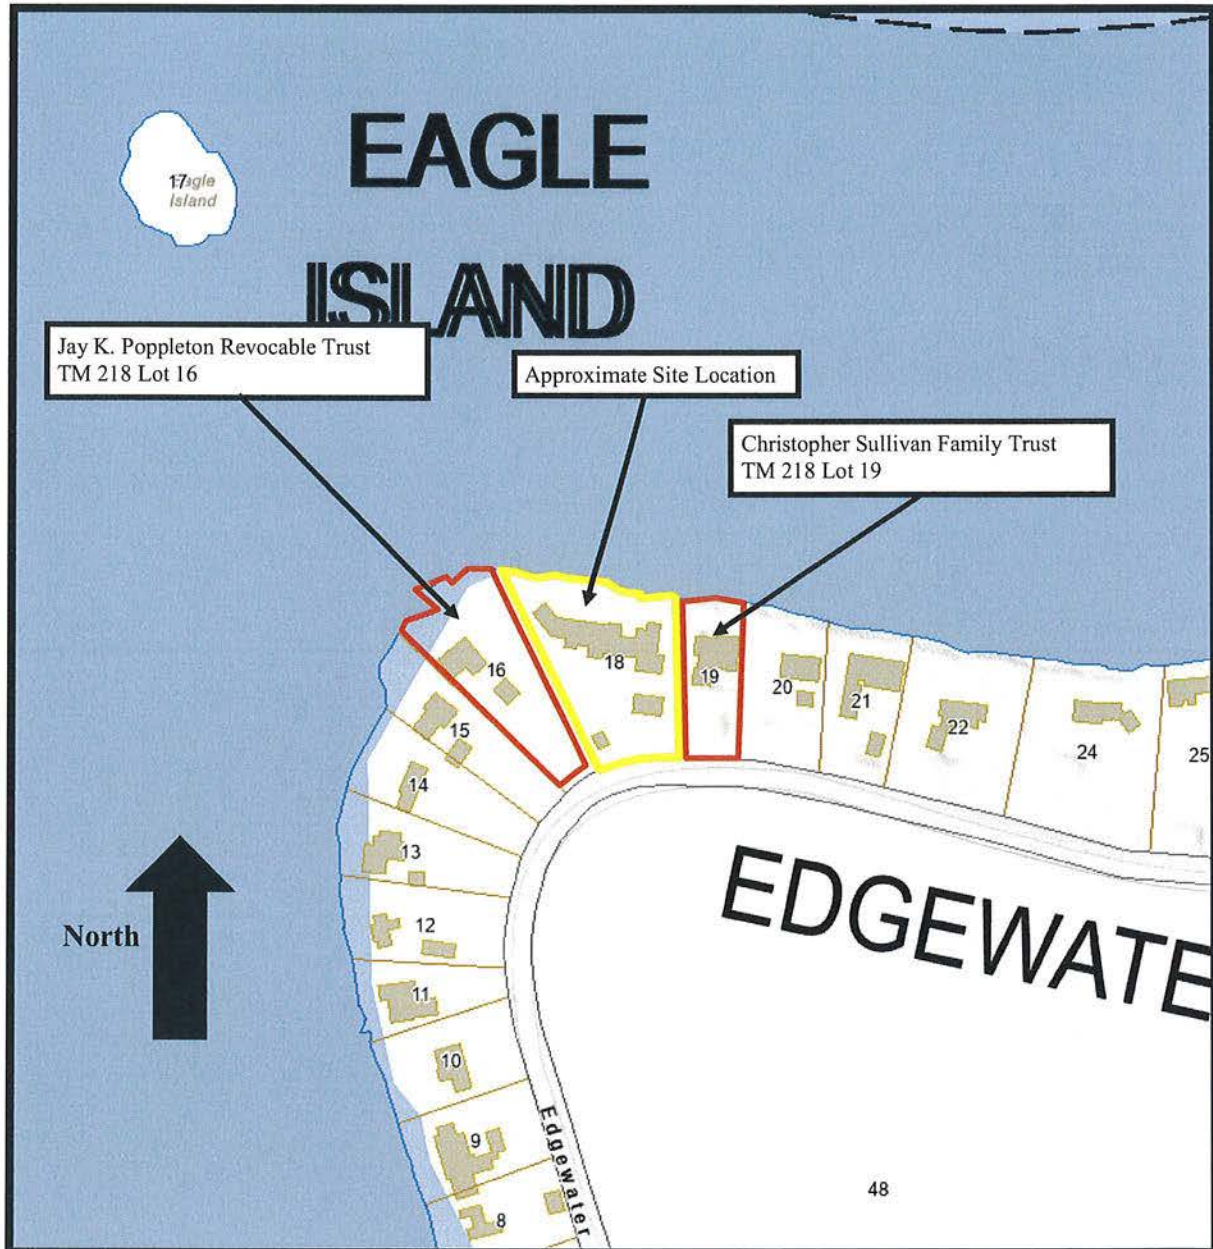

DIRECTIONS FOR APPLICANT:

Submit the original permit application form bearing the signature of the Town/City Clerk, additional materials, and the application fee to NHDES by mail or hand delivery at the address at the bottom of this page. Make check or money order payable to "Treasurer – State of NH".

Re: Review by NHDES Ecological Reviews of request dated 8/20/2025

Permit Type: Wetlands Standard Dredge & Fill

Project ID: DCT25-2422

Applicant: Cynthia Balcius

Location: Gilford
Tax Map: 218, Tax Lot: 18
Address: 296 Edgewater Drive

Project Description: The applicant is proposing to complete a commercial dredge around their existing docking structure.

The NHDES Ecological Review database has been checked for records of rare species and exemplary natural communities near the area mapped (see next page). The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government. There are currently no recorded occurrences of sensitive species near this project area.

A negative result (no record in the database) does not mean that a sensitive species is not present. These data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to the NH Natural Heritage Bureau and/or the NH Fish and Game Department. However, many areas have never been surveyed or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

Based on the information submitted, no further consultation with the NH Fish and Game Department pursuant to Fis 1004 is required.
