Bureau of Construction
June 30, 2026

Requested Action

1. Authorize the Bureau of Construction to enter into a contract with Sargent Corporation (Vendor 273743) of Orono, ME on the basis of a low bid of \$1,318,625 for replacement of two (2) 18" Reinforced Concrete Pipe (RCP) culverts conveying tidal flows under Squamscott Road in Stratham (Project: Stratham #43001), from the date of Governor and Council approval through June 4, 2027, unless amended by the Department in accordance with the Standard Specifications. **100% Federal Funds.**

Funds are available in the following account for State Fiscal Year 2027, as follows:

Funding is available as follows:	FY 2027
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$1,318,625.00

2. Further authorize that a contingency in the amount of \$131,862.50 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Funding is available as follows:	FY 2027
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$131,862.50

Explanation

This project was initiated by a coastal grant with The Nature Conservancy (TNC) and involves the replacement of two 18" RCP culverts in fair to poor condition with 8 ft wide x 7 ft high concrete box culverts. Both culverts convey normal tidal flows under Squamscott Road. The westerly culvert is 1,500 ft east of the intersection on NH 108 and Squamscott Road, and the easterly culvert is 1,775 ft from NH 108 (culvert crossings are 275 ft apart). The eastern culvert has minor proposed changes to the existing roadway profile. Roadwork includes the replacement of guardrail with steel-backed wood rail. A limited road closure, within specified dates, with detour onto state roads, as allowed, for the culvert replacement.

This project will result in two 8 ft wide concrete box culverts to convey tidal flow and small freshwater runoff areas. Squamscott Road is a road used as a short cut for east – west travel circumventing the NH 33/NH 108 circle. This culvert project will increase coastal flood resiliency along an evacuation route while addressing environmental resource functions and values, such as salt marsh migration, wetland connectivity and wildlife passage, thereby balancing the built infrastructure with ecological resilience.

The proposed contingency amount is 10% of the contract amount. This is to account for the risks associated with culvert excavation and foundation conditions, unanticipated traffic control needs, and potential risk of over-runs in minor items such as pavement repair and erosion control.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval, will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested. The Department of Transportation has determined that the vendor is in good standing with the Secretary of State's Office, has secured the required levels of insurance, and has provided evidence of authority to execute and be bound by the contract.

Sincerely,

A handwritten signature in blue ink, appearing to read 'David M. Rodrigue', with a long horizontal stroke extending to the right.

David M. Rodrigue, P.E.

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: Replacement of two 18" rcp culverts in fair to poor condition with 8 ft wide x 7 ft high concrete box culverts. Both culverts convey normal tidal flows under Squamscott Road. The westerly culvert is 1500 ft east of the intersection on NH 108 and Squamscott Road, and the easterly culvert is 1775 ft from NH 108 (culvert crossings are 275 ft apart). The eastern culvert has minor proposed changes to the existing roadway profile. Roadwork includes the replacement of guardrail with steel-backed wood rail. A limited road closure, within specified dates, with detour onto state roads, as allowed, for the culvert replacement.

FEDERAL FUNDING: 0% (Grant obtained by DES Coastal from NOAA, funded through the Coastal Zone Management Act (Infrastructure Investment and Jobs Act (IIJA))).

CONTINGENCY: The proposed contingency amount is 10% of the contract amount. This is to account for the risks associated with culvert excavation and foundation conditions, unanticipated traffic control needs, and potential risk of over-runs in minor items such as pavement repair and erosion control.

PROJECT INITIATED: After review and selection in 2019 of suitable crossings for National Fish and Wildlife coastal grant with The Nature Conservancy (TNC).

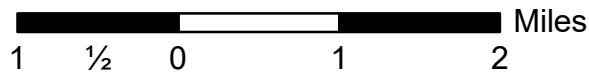

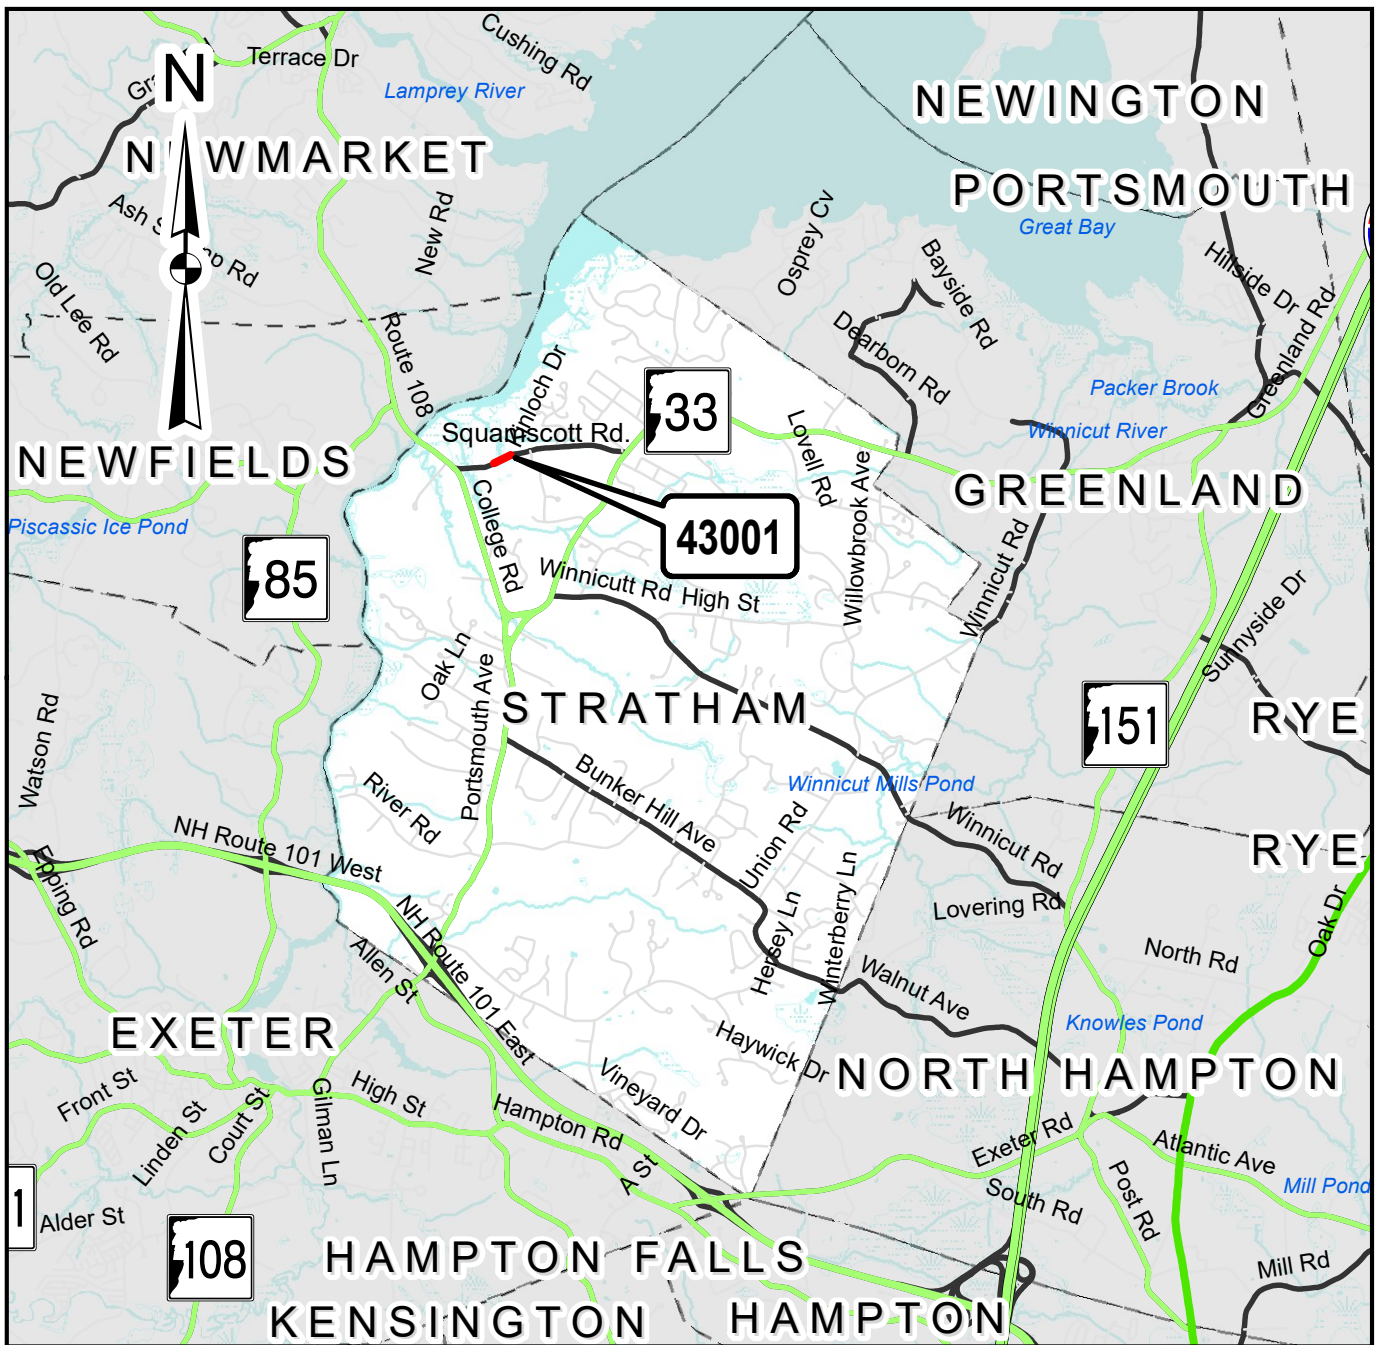

PROJECT EXPLANATION: This project will result in two 8 ft wide concrete box culverts to convey tidal flow and small freshwater runoff areas. Squamscott Road is a road used as a short cut for east – west travel circumventing the NH 33 / NH 108 circle. This culvert project will increase coastal flood resiliency along an evacuation route while addressing environmental resource functions and values, such as salt marsh migration, wetland connectivity and wildlife passage, thereby balancing the built infrastructure with ecological resilience.

TRAFFIC IMPLICATION: A road closure for construction for a 4-week span will be allowed within the timeframe of September 9 through November 20, 2026. One-lane, alternating two-way traffic during work hours will be allowed before and after road closure, subject to the approval of the Engineer. A signed detour on NH 33 & 108 will be provided.

INTERMEDIATE COMPLETION DATE: November 20, 2026 (culverts constructed, road open on binder pavement)

FINAL COMPLETION DATE: June 4, 2027

A handwritten signature in black ink, appearing to read "David M. Scanlan", is written over a circular stamp that partially overlaps the seal.

David M. Scanlan
Secretary of State

Corporate Resolution

I, Carey L. Sheehan, hereby certify that I am duly elected Clerk/Assistant Secretary/Officer
(Name)
of Sargent Corporation. I hereby certify the following is a true copy of a vote taken at
(Name of Corporation)

a meeting of the Board of Directors/shareholders, duly called and held on August 7, 2025,
at which a quorum of the Directors/shareholders were present and voting.

VOTED: That Douglas E. Morrison, VP-Ops/COO/North (may list more than one person) is
(Name and Title)

duly authorized to enter into contracts or agreements on behalf of

Sargent Corporation with the State of New Hampshire and any of
(Name of Corporation)

its agencies or departments and further is authorized to execute any documents
which may in his/her judgment be desirable or necessary to effect the purpose of
this vote.

I hereby certify that said vote has not been amended or repealed and remains in full
force and effect as of the date of the contract to which this certificate is attached. I further certify
that it is understood that the State of New Hampshire will rely on this certificate as evidence that
the person(s) listed above currently occupy the position(s) indicated and that they have full
authority to bind the corporation. To the extent that there are any limits on the authority of any
listed individual to bind the corporation in contracts with the State of New Hampshire, all such
limitations are expressly stated herein.

DATED: 6/5/2026
