Her Excellency, Governor Kelly A. Ayotte

Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Administrative Services to enter into a contract with CPR Savers & First Aid Supply, LLC. (VC#163355), Scottsdale, AZ in an amount up to and not to exceed \$986,000.00 for the supply of automated external defibrillators, (AED) manufactured by Philips and Zoll, with an option to extend for up to an additional two years effective upon the upon approval by the Governor and Executive Council through June 30, 2031.

Funding shall be provided through individual agency expenditures, none of which shall be permitted unless there are sufficient appropriated funds to cover the expenditure.

EXPLANATION

The Department of Administrative Services, through the Bureau of Purchase and Property (BoPP), issued request for bid (RFB) 3127-26 on March 26, 2026, with responses due on April 14, 2026. The solicitation reached 75 vendors. The strategic goal was to establish multiple contract awards based on the lowest compliant cost per category, allowing the State to support its existing variety of AED infrastructure. Three competitive responses were received with the two lowest compliant responses from the incumbent contractor, Lifesavers, Inc., and CPR Savers & First Aid Supply LLC. Based on the lowest-cost compliant submissions, approval of these contracts will authorize agreements with both vendors, spanning three major AED brands, including Defibtech, Philips and ZOLL.

This contract upon approval, for automated external defibrillators, with CPR Savers & First Aid Supply, will provide continued statewide access to crucial lifesaving devices needed by state agencies and other eligible participants. The absence of this contract would result in utilizing agencies and participants having to switch product line over to another type of AED system(s).

Each month, first responders in New Hampshire are dispatched to an average of 200 adult cardiac arrests. Data shows that when a bystander, state employee or other non-medically trained individual uses an on-scene AED, they deliver an average of two critical, lifesaving shocks before local public safety arrives. To maintain this vital safety net without interruption,

state agencies require reliable, continuous access to the specific AED devices and equipment already deployed across our facilities.

Research highlighted by the National Institutes of Health shows that among individuals with a "shockable" rhythm, those who receive an AED shock from a bystander have a much higher survival rate (67%) compared to those waiting for EMS without such intervention (43%).

Contract financials	
Estimated annual spend	\$157,532.00
Estimated five-year term spend	\$787,660.00
Recommended price limitation	\$986,000.00

Based on the foregoing, I am respectfully recommending approval of the contract with CPR Savers & First Aid Supply, LLC.

Respectfully submitted,

Charles M. Arlinghaus
Commissioner

Special Notes: The bid tabulation provides a clear cost comparison for all bidders by manufacturer. The solicitation was intentionally structured to award multiple contracts for Automated External Defibrillators (AEDs) across three different manufacturers, with the potential for up to three suppliers.

CPR Savers offered the lowest overall cost for AED units manufactured by Philips and Zoll, reflecting an average price reduction of approximately 6.5% compared to current costs.

Life Savers Inc. submitted the most competitive pricing for AED units manufactured by Defibtech, achieving average cost savings of approximately 5%.

These results support the intended multi-award structure and demonstrate meaningful cost efficiencies across all three AED manufacturers.
