Explanation

This project was initiated through the Bureau of Turnpikes/Bureau of Highway Maintenance and provides for the repair of damaged beam guardrail on the Central and Eastern Turnpike system, and Tier 1 roadways within Districts 5 and 6. Work will be initiated via a work order issued by the Bureau's Administrator/District Engineer, their duly authorized representative, or Maintenance Superintendent or Supervisor. All materials required to facilitate repairs will be furnished by the Contractor.

Due to safety concerns, when existing railing within District 5 or 6, or on the Turnpike system is damaged, this contract will be invoked by the Bureau's Administrator, their duly authorized representative, or Maintenance Superintendent or Supervisor to repair the damaged guardrail that cannot be fixed by Turnpike or District personnel.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval, will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested. The Department of Transportation has determined that the vendor is in good standing with the Secretary of State's Office, has secured the required levels of insurance, and has provided evidence of authority to execute and be bound by the contract.

Sincerely,

A handwritten signature in blue ink, appearing to read 'DR', with a long horizontal stroke extending to the right.
