Explanation

This project is part of the State's Ten-Year Transportation Improvement Plan, under the Turnpikes Renewal and Replacement (TRR) Program. This is a bridge preservation project for two bridges (Nashua Br. No. 157/059 and Nashua Br. No. 157/058) on the Circumferential Highway EB & WB over the

Merrimack River and CSX Railroad in the City of Nashua and Town of Hudson. Work consists of replacing the bridge deck pavement and membranes, partial and full depth deck repairs, and replacing modular expansion joints.

The existing spray applied membranes on the bridges have consistently delaminated and have required frequent repairs. The WB bridge was built in 1973 and rehabilitated in 1999, and the EB bridge was built in 2000; therefore, these structures are within schedule for preservation. In addition, there is pavement shoving near the ramps.

The proposed contingency amount is 5% of the contract amount. Deck condition and amount of patching required is estimated and cannot be known until the pavement and membrane have been removed.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 0% Federal funds (100% Turnpike Renewal and Replacement).

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested. The Department of Transportation has determined that the vendor is in good standing with the Secretary of State's Office, has secured the required levels of insurance, and has provided evidence of authority to execute and be bound by the contract.

Sincerely,

A handwritten signature in blue ink, appearing to read 'David M. Rodrigue', with a stylized flourish at the end.

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This is a bridge preservation project for two bridges (Nashua Br. No. 157/059 and Nashua Br. No. 157/058) on the Circumferential Highway EB & WB over the Merrimack River and CSX railroad in the City of Nashua and Town of Hudson. Work consists of replacing the bridge deck pavement and membranes, partial and full depth deck repairs, and replacing modular expansion joints.

FEDERAL FUNDING: 0% (100% Turnpike Renewal and Replacement Program)

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. Deck condition and amount of patching required is estimated and cannot be known until the pavement and membrane have been removed.

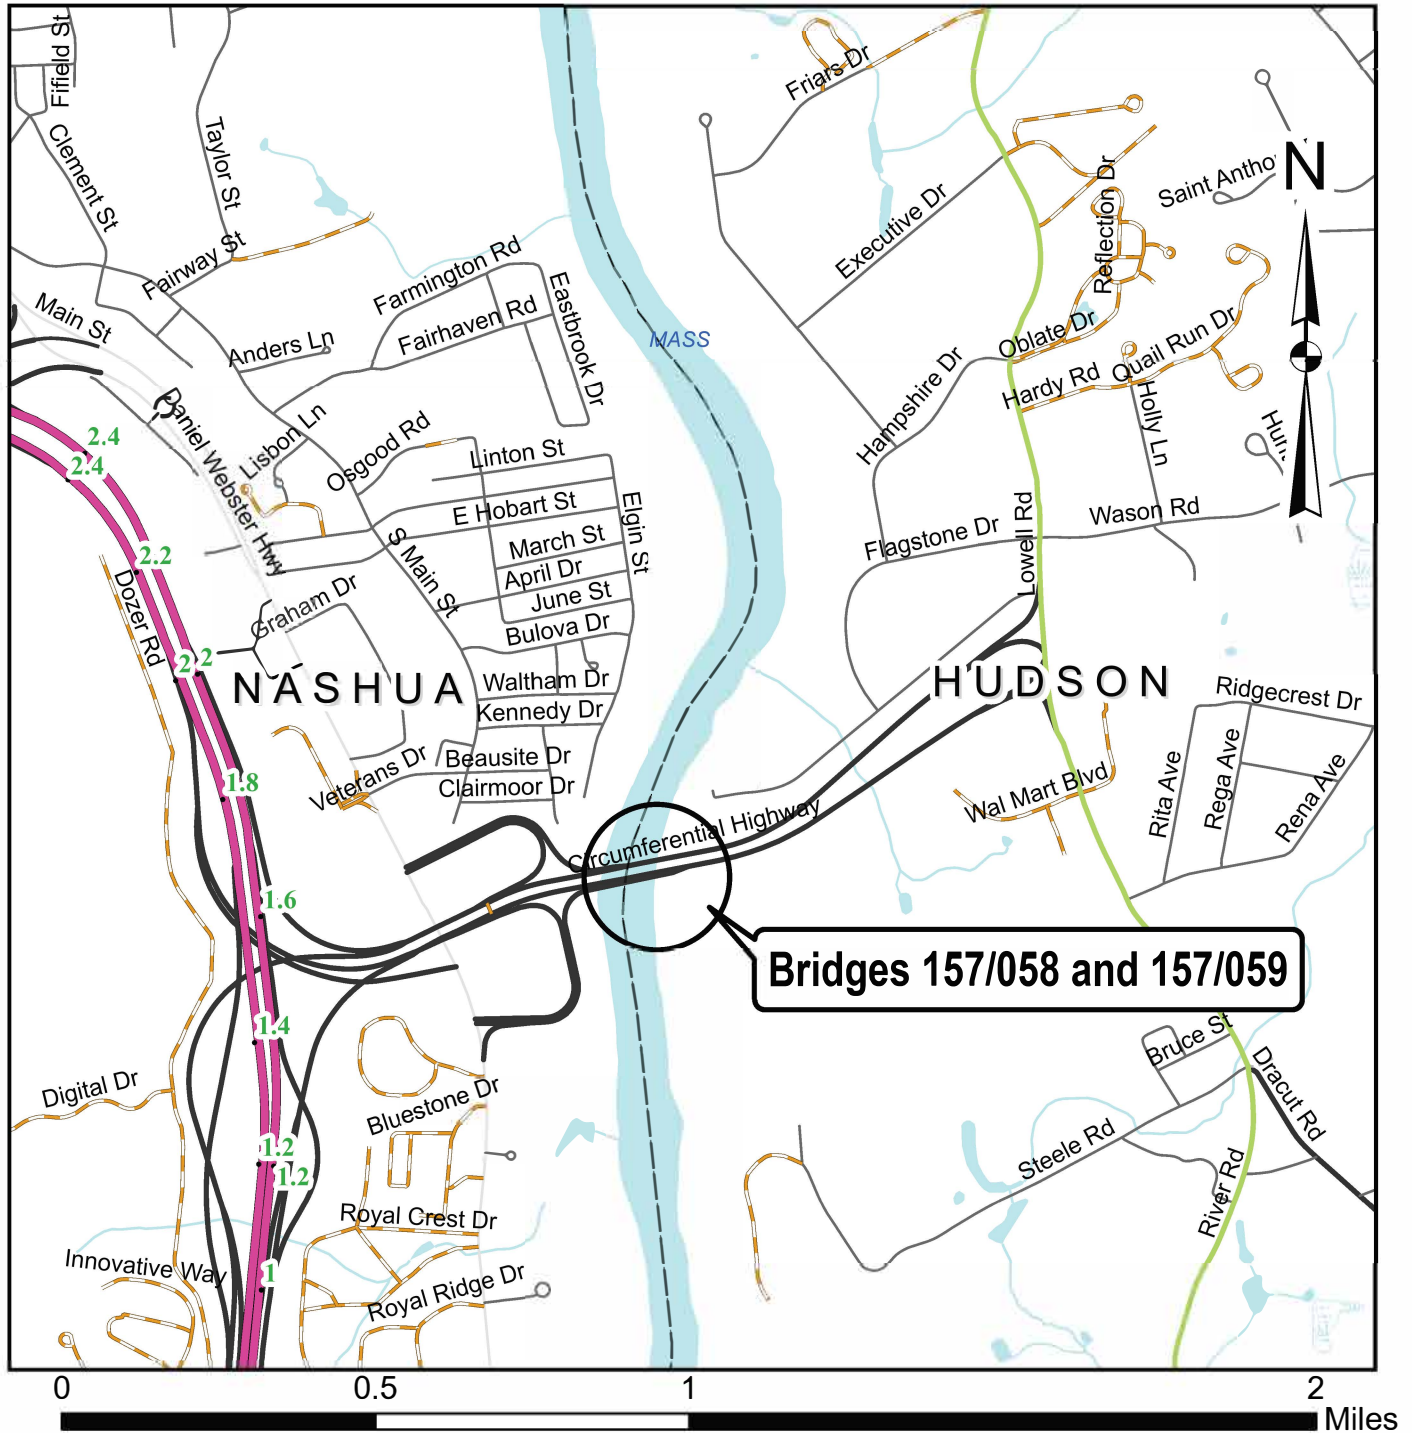

PROJECT INITIATED: Bureau of Turnpikes Renewal and Replacement (TRR) Program

PROJECT EXPLANATION: The existing spray applied membranes on the bridges have consistently delaminated and have required frequent repairs. The WB bridge was built in 1973 and rehabilitated in 1999, and the EB bridge was built in 2000; therefore, these structures are within schedule for preservation. In addition, there is pavement shoving near the ramps.

TRAFFIC IMPLICATIONS: Season 1 there will be two WB lanes that cross over to the EB bridge. There will be two lanes in each direction. The WB barrel and WB off-ramp will be closed. Season 2 will have 2-phased construction over the EB bridge. There will be two lanes, and the EB on-ramp will be closed during one of these phases.
